## **SAFETY FIRST**

**By E. J. EVANS**

This is a subject that has engaged the attention of many eminent men and while much good constructive work has been done, yet so much remains to be done on this problem that is so important to all people, peculiarly so to the Electrical Worker, that perhaps it would not be amiss to discuss ways and means to further this great and live movement.

The Federal Government has for many years past recognized the importance of this matter and through its Bureau of Standards has endeavored to solve the many problems in connection therewith in order that all of the people may be benefitted.

Different insurance and casualty companies have given it a great amount of attention. National and local organizations with Safety First as their slogan have come into the field and are doing invaluable work.

I had the pleasure of attending one Safety First exhibit and convention of the national organization, and it sure was an immense eye-opener to me as to the possibilities for future work for our members in forwarding this movement, as well as the extraordinary benefits the human family would derive.

Safety First propaganda has been carried on for a number of years by many different agencies organized to conserve life and property in this country and our brotherhood should be in the forefront in aiding to further so worthy a cause, our furtherance of Safety First principles in all business and in all walks of life would greatly rebound to our benefit both morally and materially; it would tend to insure a greater saving of lives, a greater saving and protection of prop-

erty and last but not neast a greater amount of work for our members.

With all that has been written and published on this subject how little relatively speaking has been accomplished viewed from the stand point of the Electrical Worker and pray, whom is more interested than he who is risking his life daily every minute of his working hours.

In the pursuit of our daily labor we are in constant touch with the "Grim Reaper," he is ever at our side ready at the slightest slip to gather his toll, so it behoves us to use every means within our power to beat him to it; Safety First to the Electrical Worker means that "you must look before you leap," "you must look before you touch, (and then look again)." He must surround himself with all the necessary means to safeguard and protect that most precious possession that he and others have i. e. Life; for after all life is our most precious possession and once lost cannot be regained, and so it is quite evident that no precaution is too great to take in order to conserve it and to do it in a manner that is calculated to be most beneficial to all.

It requires that those who are the most competent and the most interested be the ones to instruct in the use of and install the necessary apparatus in order that the best results may be obtained from this movement and in view of the fact that the major portion of this work is electrical none but electrical workers should be employed upon it, it is most vital that none but the highest skilled workmen be employed to insure the most efficient results and to my mind there is nobody more interested and more competent to do this class of work than the organized electrical worker, there are none so well

equipped both mentally and physically to do the major portion of this work as well as he can.

Our brotherhood should have a bureau to constantly push this matter along, it should work hand in hand with others who are engaged in the same movement, it should inform itself upon all proposed protective measures that may be in vogue or initiated, no matter where, and after considering and classifying them should from time to time issue small pamphlets regarding such new protective devices and measures that are approved and send them out to our membership as well as publish them in our journal.

It should endeavor to initiate Safety First legislation in all parts of our country as well as aid that started by others.

Strict inspection laws should be passed in all communities that would reduce the fire hazard as well as reduce accidents and deaths to a minimum.

The attention of the membership at large should from time to time be called to the importance of protecting life and property under their charge. Short, pithy and practical articles should be in every issue of our journal showing the most valuable and varied ways of so doing. The articles could be prepared from reports and articles issued from time to time by Safety First organizations, insurance companies, The Bureau of Standards, etc.

When a new idea has been brought forward and tested out by a member and found worthy this bureau should be immediately notified and let the good news be spread broadcast.

The bureau should do everything possible to educate the membership to the vital necessity of using all protective devices that may be provided and where not so provided to insist that same shall be done.

Careless and unsafe work should be frowned upon, and where same is done under others of competent authority, strenuous opposition to the installing of such work should be encouraged even to the extent of quitting work until it is rectified.

The individual members should take it upon themselves to do what they can to change these conditions where they exist, they should also take action in their locals to change such conditions, the entire power of our brotherhood could be exercised where necessary to bring about this much desired result.

National legislation should be sought in order to correct these evils and in order that standard protective measures may be in universal effect. Constant agitation should be kept up to further this movement and it should be carried along in all walks of life.

Opposition will be met from time to time but we should not falter, the vested interests will object to changing the work on the ground of expense, that is the only end that concerns them, "how much will it cost," well we don't care how much it will cost them.

We do know that the lack of proper protection in the past has cost us the lives of many of our members and has cost our brotherhood many tens of thousands of dollars in benefits that we would not have had to pay if the needed protective measures had been in force and unsafe work eliminated.

Millions of dollars worth of damage to property could have been avoided let alone the saving of thousands of lives and the crippling of thousands of people bringing in train with it crime and poverty through the lack of necessary protective measures being passed and apparatus used.

As a class of skilled and highly intelligent mechanics who know what should be done in furthering correct Safety First principles, we stand under a heavy indictment for every day we delay in the furtherance of these principles. So let us delay no longer, let us get on the job at once, let us initiate the required legislation immediately. One day's delay means many lives lost, many orphans made, more cripples made and more property damaged.

Let us change the required laws of our brotherhood or amend them as may be necessary to bring about this much desired result. I know it will cost us a little money but what is money compared to saving life. How much good will your money do you when you are dead, the small pittance it will cost each of us is nothing compared to the immense results we would secure.

Let us get busy at once and get started immediately on a work that will bring us so much that is of benefit to all and that will cause the people to rise up and say blessed be they "the International Brotherhood of Electrical Workers for they are great and good."

# IN MEMORIAM

**WALTER J. HOAGLAND.**

Whereas, Local Union No. 102, I. B. E. W., grieve that the unforeseen call of our Heavenly Father has taken from our midst in the prime of life, Bro. Walter J. Hoagland, a true and loyal member of whom this Local has always been proud.

Words can express thought, but in a misfortune of this kind, which so suddenly bore down upon his family as well as the Local Union, words cannot express our feeling over the loss of a member who had achieved so high a standard as this brother had in holding up the principles of organized labor in general, not alone in our Local Union but in other Locals of our Brotherhood, and

Whereas, through his untimely death his widow and children have lost a most kind and self-sacrificing husband and father, and

Whereas, the I. B. E. W. and Local Union No. 102 are deprived of one of their noble union workers who in life fought the battles of the weak always in the open and whose memory is revered both by his friends and those who were his opponents in life; therefore, be it

Resolved that we extend to the family of our late brother our heartfelt sympathy, and that a copy of these resolutions be presented to the widow, and be it further

Resolved that these resolutions be spread in full upon the records of this Local Union and that a copy be published in the Official Journal of the I. B. E. W., and our Charter be draped in mourning for a period of thirty days.

Alva Bennett,  
William A. Cross,  
Peter Muse,  
Committee.

**FRANK J. ALLIN.**

Whereas, the members of Local Union No. 37 of Hartford, Conn., are called to pay their last tribute to the memory of our esteemed brother, Frank J. Allin, who died in the Vassar Hospital, New York, of typhoid fever;

Whereas, Bro. Allin was a true and loyal member of Local Union No. 37, a staunch supporter of unionism and an honest faithful workman and carried his pleasing ways wherever he went and was well liked by all who came in contact with him; therefore, be it

Resolved that we, the members of Local No. 37, I. B. E. W., extend our deepest and heartfelt sympathy to his relatives in this, their hour of bereavement, and be it further.

Resolved that our charter be draped in mourning for thirty days, a copy of these resolutions to be sent to the relatives of our deceased brothers, a copy be spread upon a separate page of our records and a copy be forwarded to the International Office for publication in the Journal.

Signed: R. W. Vogt, President;  
Chas. F. Keho, Treasurer;  
H. L. Carpenter,  
John P. Kelly,  
Committee.

**WIFE OF CLARENCE W. SMITH.**

Whereas, it has pleased our Heavenly Father to call from our midst, the beloved wife of our brother, Clarence W. Smith, and

Whereas, in our brother's bereavement Local No. 347 of the I. B. E. W. feels the great loss of his helpmate; be it

Resolved that we sincerely sympathize with our brother in his great sorrow and commend him and his family to Him who doeth all things for the best; be it further

Resolved that this heartfelt testimonial of our sympathy and sorrow be forwarded to the family of our brother and spread on the minutes of Local Union No. 347 and that a copy be sent to our Official Journal.

Chas. L. Page,  
C. W. Markham,  
H. H. Broach,  
Committee.

**ARCHIE MARCEAN.**

Whereas, it has pleased Almighty God in His infinite wisdom and mercy to remove from our midst our beloved brother, Archie Marcean, and by his death our organization has lost a true and faithful member, and a brother who was well liked by all who came in contact with him; therefore, be it

Resolved that we, the members of Local No. 513, I. B. E. W., extend our deepest and heartfelt sympathy to his relatives, in this, their hour of bereavement, and be it further

Resolved that our charter be draped in mourning for thirty days, a copy of these resolutions be sent to the sister of our deceased brother, a copy be spread upon a separate page of our records, and a copy be forwarded to the International office for publication in the Journal.

William Malcom,  
Patrick A. Hern,  
Frank Mohan,  
Committee.

**OMER PARIS.**

Whereas, it has pleased the Almighty God to take from our midst brother, Omer Paris;

We, Local No. 513 of the I. B. E. W., extend our heartfelt sympathy to his parents and relatives in their hour of bereavement; therefore, be it

Resolved that our charter be draped for a period of thirty days as a token of respect to his memory, and be it further

Resolved that a copy of these resolutions be sent to the family, the Official Journal, and be placed on our minutes.

William Malcom,  
Patrick A. Hern,  
Frank Mohan,  
Committee.

**ROBT. L. BLAIR.**

Whereas, it has pleased the Almighty God, in His wisdom to call from our midst, our brother, Robt. L. Blair, who was called from this life on June 16, 1915, being electrocuted, and

Whereas, he departed this life at the very threshold of a useful career, and

Whereas, we treasured his presence among us, as he was a true and loyal member of Local Union No. 431, and an honest and faithful worker; therefore, be it

Resolved that we hereby extend our deepest sympathy to the bereaved wife, relatives and friends in their hour of grief, and be it further

Resolved that our charter be draped in mourning for a period of thirty days, and be it further

Resolved that a copy of these resolutions be sent to the wife, mother and father of the deceased, that a copy be sent to the official organ of this organization for publication and that they be spread upon the minutes of Local Union No. 431 of the International Brotherhood of Electrical Workers.

W. F. Dull,  
E. Sipple,  
Joe Holub,  
Committee.

**SON OF R. P. BAILEY.**

Whereas, it has pleased the Almighty Architect of the universe in His infinite wisdom and mercy to remove from the home of Bro. R. P. Bailey, by death, his baby son, aged one year and one month, where, there will always be a vacancy in his home that cannot be filled; therefore, be it

Resolved that we extend the bereaved family and relatives our heartfelt sympathy in this, their hour of bereavement, and bow our heads in reverence to an all wise father, who moves in mysterious ways his wonders to perform, and say "Thy Will Be Done";

Resolved that this heartfelt testimonial of our sympathy and sorrow, be forwarded to the family of our brother and spread on the minutes of Local Union No. 227, and that a copy be sent to our Official Journal and seal of Local Union be attached thereto.

Signed: W. T. McCord, President;  
L. H. Mahood, Fin. Secretary;  
G. E. Broome, First Inspector,  
Committee.

**GEO. NORRIS.**

Whereas, Local No. 60, I. B. E. W., has been called upon to pay its last tribute of respect to the memory of one of its most worthy members Bro. Geo. Norris, who was electrocuted Monday, June 7, 1915. We are again brought face to face with the eternal truth that life, so dear to us all is but a fleeting shadow here today and gone tomorrow. Stricken down while in the flower of useful, vigorous and glorious manhood. His many noble qualities, his great unselfish character, his kindly generous, bouyant spirit, his fearless heart always ready to fight for the cause of right, will always be fresh in the memory of those who knew him best, and

Whereas, we recognize that his untimely death has taken away from Local No. 60, an esteemed and worthy member, the community a good and loyal citizen and the home a devoted and faithful husband and father; therefore, be it

Resolved that we bow our heads in prayer that his soul may rest in eternal peace, and be it further

Resolved that the members of Local Union No. 60 extend their deepest sympathy to the family, relatives and friends in this their hour of grief, and be it further

Resolved that our charter be draped in mourning for a period of sixty days as a token of respect to his memory and that a copy of these resolutions be sent to his bereaved family, and that a copy be forwarded to the Journal for publication.

Geo. Collier,  
F. J. Vollmer,  
J. W. Null,  
Committee.

**A. B. YARNELL AND R. L. KNOOTZ.**

Whereas, it has pleased Almighty God to summon into His presence our beloved brothers, A. B. Yarnell and R. L. Knootz, and

Whereas, they departed this life at the threshold of a useful career and in the prime of manhood, and

Whereas, we treasured their presence among us as they were both true and loyal members of Local Union No. 595;

Resolved, we hereby express our heartfelt sympathy to their bereaved families, relatives and friends in their hour of grief;

Resolved that our charter be draped in mourning for a period of thirty days, and be it further

Resolved that a copy of these resolutions be sent to the bereaved families and that a copy be forwarded to the Journal.

George Moore,  
Jack Manning,  
Will Shepherd,  
Committee.

Local Union No. 595, I. B. E. W.

**WILLIAM J. CALLAHAN.**

Whereas, it has been the will of Almighty God to call from this world our beloved and esteemed brother, William J. Callahan; and

Whereas, the intimate relation long held by our deceased brother with the members of local union No. 49, I. B. E. W., render it proper that we should place on record our appreciation of the services as a member and his merits as a man; therefore, be it

Resolved, that in the death of Bro. Callahan, this local loses a charter member who was always active and zealous in his work as an electrical worker and ever ready to assist the needy and distressed, prompt to advance the interest of the local, devoted to its welfare and prosperity, one who was wise in counsel, fearless in action, and an honest, upright man, whose virtue endeared him not only to his brethren of the I. B. E. W., but to all his fellow citizens; be it

Resolved that this local tender its heartfelt sympathy to his wife and little daughter and relatives of our deceased brother in this, their sad affliction, and as a mark of our sorrow, our charter be draped for a period of thirty days, a copy of the resolutions be spread on the minutes of this Union, a copy sent to the family of our deceased brother and a copy sent to the International office for publication in our Official Journal.

## EDITORIAL

### PRESS SECRETARY NO JOKE.

One of our Press Secretaries suggests that a page of our Journal be set apart each month for the purpose of publishing the names of cities and localities where our unemployed members could procure employment.

The suggestion is a good one, but owing to the attitude shown existing among the members or at least part of them in our various Local Unions we are afraid the suggestion will not find much favor with them.

When work is a plenty in any particular locality the members of the Local Union having jurisdiction over it would censure a Press Secretary and at least endeavor to remove him from office should he send us that information for publication in our Journal.

We have seen in our years of experience many occasions arise, where a Local Union was unable to supply sufficient competent mechanics, to our employers and we noticed on those occasions that those same Local Unions made absolutely no effort to get members from other Local Unions that had many idle members despite the fact that they did not have to do anything other than write a letter asking that idle members be informed of the positions in question.

We have also seen Press Secretaries forbidden by motion to mention in their monthly letter that men were wanted within the jurisdiction of their Local.

In trying to figure out the cause or reason for such unbrotherly and unwarranted action, we have come to the conclusion that the members responsible therefor are afraid that if a few traveling members should deposit their cards in their Local Union, they might loose the jobs they hold sooner than they would if all traveling members were kept out, or they would lose the opportunity to work overtime, which the employer would have to resort to in order to finish the work per the contract or at the time promised.

We also have seen members oppose sending for men to other Local Unions, and later discovered that those self same members had written personal letters to friends of theirs telling them to come on as they had good jobs for them and in many such instances the members they wrote to were employed.

We have often stated that the innate selfishness of man and the law of human nature cannot be changed, no matter what is done or resorted to in the effort to do so.

We may make laws, we may whereas and resolve and resolve and resolve and resolve again and again at our every meeting to overcome it, but we will fail, it cannot be done, for men will figure out some way to make such laws and resolutions ineffective.

There is not a Local Union or a member in our Brotherhood to the best of our knowledge and belief, who can truthfully say we ever refused to publish a letter or a notice in our Journal that they sent us for publication that contained the information that men were wanted in their respective cities or jurisdictions. In fact, in the June issue of our Journal we asked to be informed if there were any positions open anywhere within our jurisdiction. Up to this writing we have not heard from but one Local Union.

We do hear each month from Local Unions asking us to insert a notice in the Journal that a large number of their members are out of work, which is a notice to traveling members not to come to their respective cities and expect to obtain work.

It is the duty of all Local Unions to inform the membership honestly of conditions of work within their territorial jurisdictions through our Journal. No Local Union not involved in constitutional difficulty should hesitate to extend the hand of good fellowship and fraternity to all traveling Brothers, who may come to their city, and admit them to membership if they are qualified according to our laws.

The pages of our Journal are open to the Press Secretaries for a monthly letter each month. It is the duty of each Press Secretary to explain in his letter the condition of work within the jurisdiction of his Local Union and whether or not the Local Union is able to supply all of the men necessary.

We have pleaded with them to send monthly letters, we have criticised them for not doing so, we have asked the members of each Local Union to compel them to do so, and we intend to continue our efforts in that direction, that's the best we can do, as we have no power or right to go any further.

If a Local Union would agree to pay a fair salary or to send the Press Secretary to the Brotherhood's convention as a delegate provided he sent a letter for publication in our Journal each month explaining the condition of work, how many members employed and unemployed, how many more men are needed if any and matters of general interest, then we might be successful. As it is now the office of Press Secretary is looked upon as a joke in most Local Unions. If the members of the referred to Local Unions do not like a member or want him to hold office they hand him the nomination for Press Secretary, guarantees him he will have no opposition and elect him unanimously. On the night of election the new Press Secretary pats himself on the chest and glorifies in his being the only officer elected by an unanimous vote of the members and figures he is the most popular member of the Local Union, and believes at the next election he will surely be elected President or Business Agent.

When his pipe goes out and he wakes up and finds that the members of his Local Union considers the office of Press Secretary a joke, he naturally refuses to fulfill the duties of the office, consequently he sends no monthly letter to us for publication.

To further prove the members of those certain Local Unions referred to do consider it an annual joke they pay no more attention to it until the following election of officers when they hand it to some other Brother with the same results.

Section 6 of Article 26 of the Constitution provides that any office shall be declared vacant if the holder thereof fails to discharge his duties for two successive meetings, unless he presents a valid excuse.

You very seldom if ever hear of the office of Press Secretary being declared vacant which is another point in proof that the office is not seriously considered.

In many instances the Press Secretaries consider their office a joke, that is clearly proven by the fact that they refuse to discharge the duties of their office, and at the same time they will not resign from it.

Perhaps their main reason for not resigning is because if they did tender their resignation the members would vote not to accept it, or most

likely vote to lay it on the table, so that the question could not be discussed.

We are sure the members who continuously are calling for the publication of more Local Union letters in our Journal are sincere.

We hope their agitation will result in interesting our entire membership in the importance of the office of Press Secretary so that those who continue to look upon it as a joke will be at least few and far between.

We intend to co-operate with those members in every way possible.

The Press Secretary is one of the important officers of a Local Union. The incumbent being in a position to do a good work for our membership in an educational way. Their letters are earnestly read by our members in all parts of the United States and Canada who appreciate the information they contain.

### **MAKE THEM SHOW YOU.**

We are glad to hear of the intense interest our members are taking in our coming Convention. It speaks well for the future success of our Brotherhood.

In many Local Unions there will be contests for election of delegates. Each candidate should enter into such contests with a friendly spirit and if after the votes are counted, they find they have been defeated, they should shake the successful candidate's hand and wish him God's speed. This shows the true spirit of a trade unionist and the spirit of a member whose heart is in the right place.

The members that voted against such men will feel proud of them and commend them for it.

Any one can be a good winner, but it takes the real man to be a good loser.

There must be a winner and loser in every contest. It is only natural that we all desire to be a winner when we enter into a contest of any kind, and while we feel disappointed when we lose we should not forget the fact that every eligible members has the same right to seek elective and appointive honors as we have. If we are defeated it is because the winner received more votes than we did. Why the members voted against us is their business.

We may honestly believe that we are more qualified and competent to fulfill the duties required, but if the members think otherwise, we must abide by their decision, and not feel sore and condemn everyone that voted against us.

In voting for candidates the members should use sound judgment and not be swayed by unverified stories that may be put in circulation for campaign purposes. Make them show you before you believe them. Any man who tells you a story reflecting on another's character or standing as a trade unionist should be able and willing to produce the proof to back it up.

You owe it to yourself as well as the members it directly affects to make him produce the proof; if he refuses or cannot don't believe him.

When you are told of what this or that Brother has done to bring him into disrepute just ask yourself suppose such a story was circulated about me, would I not expect my friends and those who know me best, to insist on having the proof of it produced.

It is only natural that you would expect them to do so. That being so then be fair and give the accused a fair shake, be honest with yourself, and you will give all a square deal.

None of us are angels, we all have our faults. If you have never sinned then you may throw a missile at another. But if you have sinned

don't throw it. If you do it is sure to act like a boomerang and return and do you the most damage.

If a candidate for honors is not able to procure them by fair, square, open and above board tactics, he is not worthy of receiving them.

We should all bear in mind that an election for delegates to our convention are held but once every two years, therefor we should do our part to see they are conducted in accordance with the laws, both Local and International, by making every one interested play his cards in the open so we can all see them, as well as to see to it that nothing is done by any one that might bring discredit upon our Union or cause dissension therein that might impede its progress. Our Brotherhood and Local Unions must go on and on, and will go on and on in the march of progress doing their full share in the struggle for the uplift of humanity. The officers, Local and International, and delegates to our Conventions are a secondary consideration for they will come and go, while our organization will go on for ever.

### **OUR KNOCKERS AND FAULT-FINDERS.**

Mr. Knocker, did you ever ask yourself seriously what your wages would be and under what conditions you would be compelled to work, if you did not have your Union back of you.

No matter what your experience has been or how skillful you are at the branch of our trade you are following, you would be playing in good luck if you were not compelled to work at least ten hours per day for any wage scale the employer saw fit to pay, and you would be compelled to put with it and bear it, and if you opened your mouth in protest you would have a can tied on you, and another wage slave would take your place. You would never be missed and the business would go on without you just the same regardless of your ability.

Still you hesitate to assist your Local Union which is responsible for the conditions you now enjoy and many times do things against its best interests. You would rather cater to the boss who would compel you to work for starvation wages under any old conditions he saw fit to impose on you, than defend your Union when it is unjustly attacked by its enemies.

You do not attend the meetings only when it is necessary to avoid paying a fine.

You are continually knocking the active workers of your Local Union because they compel you to live up to the working rules.

You carry back to the boss everything done at the meeting of the Local.

Nothing the Local does suits you, your opinion and decision is sounder than is the opinion and decision of a majority of the members.  
**IN YOUR OWN MIND.**

You are never satisfied unless knocking some officer Local or International. If you had your way your Local Union would be a Mutual Admiration Society rather than a labor organization.

We have many of your calibre among us, but thank goodness the members are onto you, they know you. they became acquainted with you through bitter experience.

Your day is past, you cannot fool them any more. You can't play both ends against the middle any longer.

Misrepresentation won't get you anywhere in the future, your grandstand plays to the sentiment of the members to have them do your bidding; that old stuff don't go any more.

So wake up for knockers have become so unpopular that they have even removed them from doors.

### **LEGAL DIFFICULTY BENEFITS.**

Do you or do you not want the Brotherhood to pay a weekly constitutional difficulty benefit? In our opinion it is imperative that we should, our Convention will deal with this question. Bring it up at your next meeting for discussion so that your delegate can vote according to the sentiments expressed by your Local.

We believe the amount of difficulty benefits should be reasonable and they should be paid each week promptly so long as the difficulty lasts, be that for weeks, months or years.

To do that we must base the benefit on a financial plan that will be sound so that sufficient money will be laid aside each month for that purpose.

We can obtain better conditions for our members when we demonstrate to the employers that we are able to finance our members for an indefinite period.

It is up to our members. It is they who have the power to provide for the payments of benefits in times of difficulty. It is they who are compelled to suffer for lack of these benefits in times of difficulty.

After the St. Paul Convention the big employers will laugh at us again, if we do not adopt such a plan and say to each other we will have the Electrical Workers where we want them for at least another two years.

This is a serious question. It is worthy of your serious consideration.

### **NEW YORK STATE ASSOCIATION OF ELECTRICAL WORKERS.**

Representatives of a large number of Locals in the Empire State convened at Utica on June 26th and formed a state organization. The purposes set forth in the preamble of the by-laws adopted are broad and based upon true trade union principles, and the organization will without doubt wield a great influence in advancing the interest of the craft in New York State, not alone along legislative lines but also by bringing about closer acquaintanceship among the members thereby establishing a feeling of mutual interest among all branches of the trade, the necessity of this feeling is becoming recognized to a greater extent each day.

The importance of giving more attention to legislative matters is beginning to be realized by all and through the medium of State organization it will be possible to initiate proposed laws and bring the influence of the members in each State to bear upon their respective law-making bodies. The advantages of State organizations should be thoroughly considered by all Locals.

### **W. A. IVES MFG. CO. ADOPT THE UNION LABEL.**

Representatives of the Metal Trades Department has just concluded an agreement with the W. A. Ives Manufacturing Co. of Wallingford, Conn., which provides for the complete unionizing of the firm's plant and placing of the union label of the Metal Trades Department upon the company's product. This label is representative of all trades affiliated with the department.

One of the chief products of this company is the famous "Mephisto" bit whose qualities are highly recommended by those who have used them. These bits are handled by practically all dealers and there remains no excuse for members of organized labor who have use for wood boring tools not to purchase union made goods. Bear in mind when you do so you are extending the demand for union labor, in fact every purchase of this character made by you will mean added employment for union men. Adopt the slogan of patronizing those who patronize you.

---

**A CONVENTION TIP.**

At every Convention we held for years past, some delegate or delegates has lost their pocketbooks or bank rolls and had to depend on the generosity of the other delegates attending the Convention to pay their hotel bill and railroad fare back home.

During the coming International Convention we are going to try and prevent a reoccurrence of this and have arranged for a save deposit box, so that any delegate can put away his money or part of it until he wants to use it.

It is inadvisable to carry a large sum of money around with you when it is not needed and can be put in a place of safety until wanted.

---

Please do not blame the International officers if you are not eligible to be seated as a delegate in our International Convention. We are not responsible for the laws any more than you are.

If we did not notify your Local Union of your standing and eligibility and you went to St. Paul and were not seated, then your Local Union could blame us, and justly so, for not notifying it in time to elect some other members. But inasmuch as you must blame some one it might just as well be us. So go to it.

---

Our Telephone Operators are still marching along making great progress. They have successfully overcome all obstacles they have met to date and judging from the number of requests we are receiving for organizers for them from different parts of our jurisdiction a wave of organization has struck them.

We will answer all calls as soon as possible.

---

It is said that the meanest and stingiest man in the world is the man who uses his bald head for a razor stop.

We believe that is not so, for we think that the fellow who goes to a member on the strength of his card and gets him to find him a boarding house and go responsible for his board and lodging until pay day. Then when pay day comes around beats it without making good, has it on the first mentioned a mile.

---

Out of several hundred notices received from the post office regarding the non-delivery of the Journal we found in every instance the cause was on account of members changing their addresses and failed to notify the I. O. Moral—When you change your address notify the I. O.)

---

What are you doing about organizing the Railroad Electrical Workers and Signal Men?

This is important and every Local should do their share in this important work.

The reason that the directory of some of our Local Unions is not complete or correct is on account of the fact that those Locals do not send us the corrections or the names and addresses of all their officers.

This is your Journal. Help us make it better by sending us your ideas as to how it can be made more interesting to our members. Knocking it or the "Editor" will not help it any.

When you are through reading the Journal hand it to some non-union Electrical Worker and ask him to read it at his leisure. It may be the means of converting him to our cause.

We are in hopes that our membership will keep up the good work in boosting our Union Label. Their work is beginning to tell as the demand for them is increasing.

The best way to test your pal's friendship is to touch him for five or ten bucks, some time when you are sure he has it.

Give your employer a fair day's work, and you can look him straight in the eyes on pay day.

Your paid-up card does not give you the right to lay down on the job, or cuss the foreman when he calls you for loafing.

Kind words and kind deeds to an employee tend to bring out the best that is in him.

The fastest worker is not always the best mechanic by a long shot.

### L. U. NO. 1, ST. LOUIS, MO.

#### Editor:

St. Louis is a civilized city, although some of our eastern neighbors expect to find Indians camped round the courthouse and cowboys chasing buffalo through the streets. We have some very prosperous enterprises and are progressing, as conditions here just now appear that our burg is completed. There is still room for more than we have. The several commercial organizations are always planning and are now expressing great hope of a boom soon to strike us. The sooner the better, for there is nothing doing in our line. Local Union No. 1, I. B. E. W., are not discouraged, but a great number of our members are unemployed. There are other cities in this great U. S. A. that are well supplied with union men, but none are better than what we have in Old St. Louis. The election of officers for the ensuing term June 29, 1915, resulted as follows:

President, James Casey.

Vice President, Steve Carrigan.

Recording Secretary, E. S. Wood.

Financial Secretary, H. J. Morrison.

Treasurer, Ed. Boeck.

Business Agent, Geo. B. Heath.

Executive Board, Tom Callahan, H. P. Cherry, J. T. Osborn, F. A. Price, J. Greener, John Truehe.

Examining Board, Reg. Hopkins, Kemp Leonard, H. F. May, Geo. Steel, F. Trumholt.

Delegates to St. Louis B. T. C., J. T. Kelly, J. Ledbetter, W. S. Peebles.

Delegates, C. T. L. U., St. Louis, E. Boeck, E. Lanon, E. L. Rothganger.

Delegates, C. L. U., East St. Louis, Ill., G. Brown, F. Fein, L. W. Ramsey.

Delegates, B. T. C. East St. Louis, Ill., G. Brown, F. Fein, L. W. Ramsey.

Delegate, Tri-City Trades Council, E. H. Taylor, W. H. Ulfers.

Inspectors, Jas. Elkinton, Tom Poag.

Trustee, Ed. Boeck.

Foreman, Dell B. Todd.

Press Secretary, W. L. Peebles.

Delegates to I. C., A. M. Bradford, Jas. Casey, J. F. Farrell, Tom Callahan, H. J. Morrison.

As conditions are so bad, there was but little enthusiasm displayed at the election.

The ladies must not be forgotten. Some of the companies are taking advantage of the slack times and are drop-

ping back to the old treatment of their female help. I hope the ladies will not remain passive, but follow the example of our sisters in Boston and other Massachusetts cities. There is every evidence that the officers of No. 1 have been busy as the politicians are catering to them and it seems to be of benefit to the trades. There is much talk in our ranks of the International convention and there will be some important matters discussed, and some action to benefit the I. B. E. W. The movement to crush organized labor seems to have taken a new turn, but don't be discouraged we will win.

The situation in Chicago is a menace to one of our most valuable means of protection, the Union Label.

All union men should keep in mind the power they have, if practised and that is commonly termed purchasing power. To keep that weapon well sharpened and ready, it must be practised by those to whom it will be of most assistance. When you keep in mind the union label you are adding the edge to your trusty tool of defence. You are paying no more of your earnings for a union made article, and at the same time you are recognizing those that are willing to render you assistance to acquire justice. Every article purchased that does not bear the union label is a hindrance to your cause and assistance to your enemies. If the cases at the windy city are let take the course laid out by the employers' association. You will be responsible.

Therefore extend yourself and render the indicted members of organized labor all the help you can. They must have your support. Don't sit and twirl your thumbs and say "too bad," but come forward with your money as well as purchase nothing but what bears the union label.

Remember the cause is yours as well as theirs. They are the goats in this case, and corporate interests are the sinners. The practice of placing all the faults on the other fellow is cowardly and grossly unjust. As you are looking for justice practice it, and you will put the fear of God in the hearts of your enemies. Keep up the label at all hazards. Use your purchasing power judiciously and support the members of organized labor who are menaced by the enemy, for doing their duty as they saw it. You must not

let this matter slip your mind and remember your failure to do your duty deserves punishment more than those who in their ardor may overdo theirs.

If the employers of Chicago are successful your turn may be the next. Buy whatever you need but always give union label goods the preference.

Remember Bro. Evans of No. 134 gave you pointers on another scheme of the employers.

Don't let the article get away from you, but read it with care and if you fail to grasp his meaning, write and I assure you a reply that will clear the matter. It is the duty of every trade unionist to keep posted and put his shoulder to the wheel, and don't let George do it for him. Watch your own interests and have your say as to how you think they are best guarded. Two heads are better than one even though one be a blockhead. Keep yourself in good standing with your organization and we will pull through our difficulties.

With best wishes to all, I am

Yours fraternally,

Baldy.

Editor:

The writer has just finished going over The Workers for the last six months

and finds that there are but three Press Secretaries that have a perfect score for having an article in every issue of The Worker since January. They are Baldy

of Local No. 1, H. M. Day of Local No. 39 and Major Capelle of Local No. 103. I am glad to say that I have not missed since I was elected in February and I hope that by the end of the year we will have a great many more articles appearing in our Worker than we now have. I see that No. 309 woke up and had an article in the June issue and I hope that it will not be the last one.

Work is still very scarce in this vicinity and I would not advise any of the Brothers to come this way if they are looking for work. We still have the Bell Telephone Co. on the unfair list here and as yet have not been able to do anything with them.

At our last regular meeting on the 28th of June we held our election of officers which was very warmly contested. For Financial Secretary and Business Agent we had as candidates, Brothers Harry Cookendorfer, who is the present Business Agent and Brother Harry Meyers, who up until last year held the office for a number of years. The race was a hot one and at the final count we found Brother Cookendorfer victorious by a good majority. We then took up the election of delegates to the St. Paul Con-

vention and after a number of ballots in which Brother Cookendorfer, Brother Gibson and Brother Meyers were the main contenders, we finally elected Brother H. H. Cookendorfer and Brother Robert Gibson and I feel safe in saying that the Local could not have chosen two men who would give any better service to our organization than the Brothers we have chosen to represent us. In order that the delegates throughout the country may become acquainted with their faces, I have requested the delegates to send me their photos and if I receive them in time, they will appear in this issue.

During the last part of June we had the pleasure of meeting one of our old officers of Local No. 2, who is now making his home in Chicago and hails from Local No. 9 of that city. He is Brother George C. Allen who is one of the real old timers still actively engaged in the business. It was a pleasure to see the old heads and George together, for they held a sort of reunion and I am sure they all enjoyed themselves very much.

I presume there will be a number of lengthy articles in this issue so I will close wishing for the fifty thousand and with best wishes to all the members of our re-united Brotherhood, I am

Fraternally yours,

Press Secretary, Local No. 2.

#### L. U. NO. 5, PITTSBURGH, PA.

Editor:

I regret to say that our past Press Secretary has failed to fulfill his duties, for some reasons unknown, and also sorry that No. 5 has been neglected from its news to the Journal. As I am the newly elected press agent I will try to make up for the past, although this is my first letter to The Worker.

We held our annual election on the last Friday in June, and we elected a good and honest bunch of men with true union spirit. We had two tickets to choose from.

The following names are the newly and re-elected candidates:

President, J. R. Williams.

Vice President, H. E. Kennedy.

Recording Secretary, M. P. Gordon.

Financial Secretary, S. D. Young.

Treasurer, A. J. Glenn.

Trustee, G. V. Dykeman.

Inspectors, R. E. Burke, Chas. Bradley.

Foreman, A. K. Langton.

Press Secretary, G. M. Willax.

Examining Board, Frank Overbeck, Robert Pounders, F. C. Young.

Delegates to Convention, M. P. Gordon, W. A. Hillgrove, H. J. Kluppel.

Now Brothers, in looking over this list,

you will see that Local No. 5 has elected a live set of officers. I am sorry to say that we are missing in this year's election an Advisory Board and Business Agent, but this is easy to explain. These tricky ways of doing business to benefit your bosses and injure yourselves. These ubiquitous men pulled something over on us, by making a change in our by-laws, thereby doing away with the Advisory Board and Business Agent. Therefore the Recording Secretary is now holding two offices in one which are Business Agent and Recording Secretary. But don't worry boys, we will soon change them back and elect a new Advisory Board. It's a disgrace to No. 5 to have men do any such tricks, to disrupt our Local Union. Did you ever hear of a Local without an Advisory Board, especially one the size of good old No. 5? Why, it's a disgrace to the number alone. "Now come on boys, fall in line and all unite together and forget the past."

I will go on and state we have elected three delegates to the convention, who are men of ability, who will be on the job and make things interesting and you will know that Local No. 5 is being put back where it belongs in the Electrical World, and when they return their report will be of success and progress and nothing like this, "The machine is well oiled." And I earnestly believe they will have the best interests of the International at all times. I must say we had International Vice President Bugniazet, as our guest on the 11th of June and he gave the boys a good heart to heart talk, and I hope it sank good and deep into the ones whom the shoe fit. I will also say our Brother Business Agent M. P. Gordon showed him around in his machine during his stay in Pittsburgh and I am sure he had an enjoyable visit here, and when he departed he said he would be back in July.

Now I would like to say to the brothers who are traveling and desire to come to Pittsburgh that over half of the organization is walking the streets, and one of the big jobs is just finishing so that will mean more men on the street.

There are a few members on the sick list, Michael Joyce, Monte Getz, Bill Swift, Johnny Dunlap and Wallace James and a few others.

I suppose the boys who are working here are happy, as the wages jumped to \$5.00 per day on the 1st of July.

Before I forget I must say the elected members gave an individual Buck and Wing dance, and Booker McLaughlin closed the ceremonies with his favorite songs entitled "The Old Gray Mare" and "There Was a Little Bird."

The result of the election was announced at 5 a. m. after the count was complete.

I think this is as good as I can do at my first attempt.

Hoping my next will be better, I remain,

Fraternally yours,  
George M. Willax,  
Press Secretary.

L. U. NO. 14, PITTSBURGH, PA.

Editor Worker:

I see by our Journal that a few of the brothers sense the right solution for a conceptive basis of action especially co-operation and the insurance plan and I wish to add that I have not had even a kick at the suggestion of the amalgamation of the Street Railway Workers with the I. B. E. W. Say or do something.

But there still appears to be a de-

by an organization having a principle based on equity and justice for all and capturing the power of government.

Local Union No. 14, by vote, is in favor of the public ownership of the telephone and telegraph systems. If this can be accomplished it will mean many millions in wages for the electrical workers. Many thousands of jobs with less hours of labor and better laws, more stringent in regard to hazardous employment.

And the reduction in rates of the telephone so that all employees could have the service in their homes. Would not a hundred million more in wages be an inducement? Would 25,000 more jobs be an incentive to cast your prejudices and cares to the winds? I am with you in the trial; we can do nothing less.

Trade unions as they have been run in

pression of spirit in the ranks, nothing of a definite character being propagated towards united action or even the education of the union man along class conscious lines. Education; that is what we want, education along economic lines..

It is the lack of the kind necessary that we are unsuccessful in organizing an organization for we are so polluted by the deadly virus of the plutocratic system that we can't think or act along just and honest lines. Class conscious action alone makes a true union man. How can you assimilate unionism and political scabbery? This, brothers, has been the bane of unionism and is continually being done and will keep us dependent and in slavery as long as the majority practice it and who are dependent on a salary or wage for a living. We will never get justice this side of eternity if we should depend on the good man proposition. Because it is a fallacy. It can only be done

the past are inadequate to cope with the situation under the corporate system of ruling the human as well as other kingdoms. Let us wake up to the necessity of founding the I. B. E. W. on a concrete analysis, a direct method and a co-operative action as a basis. Boost for an insurance. Boost for the centralization of all electrical workers in to one effective and compact body. Boost for public ownership of all the tools of industry.

Yours fraternally,  
G. A. Stockdale,  
Recording Secretary Local No.14.

L. U. NO. 15, HUDSON COUNTY.

Editor:

Local No. 15 is still on the map and working hard to bring back ex-brothers into the fold with the assistance of Bro. Ed. Smith, but believe me he has some job on his hands and deserves all the

credit that the boys can give him as he is fighting one of the hardest uphill fights of his career and I am glad to state that he will come out on top with that smile that never comes off.

I am sorry to state that I had to resign as Recording Secretary and Press Secretary last meeting night as I am unable to get a job handy and have to leave the State to go on another job that I expect the 1st of July. My successor, Bro. Harry Molyneux, will endeavor to fill my place.

Another matter that I wish every brother in the I. B. E. W. would be made acquainted with is in reference to Harry M. Soules.

We advertised in The Worker I believe in the April number that he is indebted to Local No. 15 to the extent of \$25.00 for the past five years.

We have got in touch with Soules and he has paid \$15.00 and claims that it is all he ever received and that the note that Local No. 15 has is a forgery and I have seen his handwriting and the note compared and there isn't the slightest question in our minds but that H. Soules is right. We have given him a clearance as we have gone over books, that we couldn't locate before, and, find that it states there, "that he received only \$15.00."

It is a blame shame that some members when they receive the confidence and the honor of a Local in being elected to an office that they cannot act with honesty. Local No. 15 is trying its hardest to prove conclusively who was the original crook that did this and will advertise him as he should be.

Another thing I wish to bring before the brothers in general is that Local No. 164 of Jersey City deserves the open thanks of every member (that is more than a card man) for the kind assistance they have given their brothers, Local No. 15, in a difficulty that they are at present involved in. If this feeling between the stronger inside locals and the weaker outside locals was as strong as exists between Locals Nos. 164 and 15, we would be one of the strongest organizations in the country today. Let these few words be thought over deeply and acted upon when the time arrives.

Again I wish all members prosperity and that in the near future the I. B. E. W. will be as strong as they deserve to be, I remain,

Yours fraternally,

Harold W. Liddy,

Rec. Secy. and Press Secy., Local No. 15.

L. U. NO. 22, OMAHA, NEB.

Editor:

As I did not get a letter in The Worker last month, will try and get a few lines

this time. There is not much to write about here as No. 22 is afflicted the same as all other Locals with nothing to do. Work is very slow here and a large per cent of the members are walking the streets. We have election of officers July 2, and made a few changes, and if the new officers will do as well and the Local will make as much gain in the next year as in the past year, we will sure have things coming our way. We also elected our delegate to the coming I. C., and he the writer wishes to say to all delegates met at Boston two years ago and also all new ones that will attend this year that our past President, C. L. Rhamey, who will represent No. 22, is there with the goods, and is on the square, and in the game for the good of the Brotherhood first last and all the time. I have just received the June Worker and in glancing over the different letters I find that some of the Locals are working up to the fact that in some places a good union man who is unfortunate enough to have to travel is not given a square deal. As per constitution, Art. 14 and I hope this matter will be taken up at the I. C. so that a man who carries a good paid up card, and has been in the Brotherhood the required time will not be held up or froze out when he is in need. Also make it plain that a brother must deposit his traveler before going to work in another town from that which issues his card. No. 22 has had some trouble in that respect with brothers coming here on jobs let to Chicago and other contractors and some brothers seem to think that when they strike a small local they can do as they please, but after we make them dig down and pay for the days they work before depositing card they are sore and claim we did not do the right thing, but of course it would be all right for them to carry a card out of a larger local and pay their dues there and work here, but we can not see it that way. If it will stop raining long enough, we will have our annual picnic tomorrow and you may see some of our ball players listed in the big league after the game we will have.

Hoping I have not taken up too much room and wishing success to the I. B. E. W., I beg to remain,

Yours fraternally,

J. P. Brown,

Press Secretary.

L. U. No. 39 ball team is holding second place in the labor league, and are sure going after first place.

At present the capitalist class in Cleveland are busy supplying the capitalist class in Europe with all kinds of weapons, shells, automobiles, etc., to murder the workers in Europe under the guise of patriotism and they will find that after this war is all over, the workers will have to pay the bills. Now, for instance, if the workers in Europe were organized as a class and would fight for their own interests in place of the parasites, when the battle was over they would have something coming to them.

Remember, brothers, the battle with us is for more pork chops and less work, and don't let the capitalist class poison our minds with patriotism while they are robbing us.

Now, brothers, let's get our shoulders to the wheel make the St. Paul convention the greatest one yet and you Press Secretary get busy, let's hear from the rest.

#### L. U. NO. 44, ROCHESTER, N. Y.

Editor:

It's a long time since you have heard from Local No. 44 for which no doubt as Press Secretary I owe an apology.

Well, to start with, while I have not seen last month's Worker, I heard that the Press Secretary of Local No. 45 had an article in criticising the International officers for devoting all their time to the inside men and doing nothing for the linemen.

I honestly think that it's up to the Press Secretary of Local No. 45 to contradict that statement owing to the fact that International Vice President Bugniet, I. S. Ford, International Organizers Moley, Dowling and Mrs. M. T. St. John have given their services organizing the Bell Company throughout New York State on and off for the last three months.

Now to talk about our Local grievance, we have at present a strike on here with the Rochester Tel. Co. owing to the fact that the company refused to discuss a new agreement which was presented to them and for discharging ten operators

for no other reason than joining the operators, Local No. 18A.

The strike was called on July 1. Everything looks bright at present on account of the men standing firm, while the Telephone Company has five strikebreakers working under the names of Sickles, Reynolds, Harrigan (who claim to be from Syracuse but are not known there) and Clark and Lane, the former having just been paroled from Auburn State's Prison where he served time for being an accomplice in a murder committed in Rochester. These men are working under the direction of Supt. of Const. J. P. Haley, Supt. of Maintenance J. B. Garry, General Foreman J. Maley and Right of Way Man R. Nagle. The services of these strikebreakers are not detrimental to us because they know nothing about the business and we consider it only a bluff.

The company has also imported girls from New York City to take the place of the operators out on strike.

Fraternal yours,  
 J. J. Dunn,  
 Press Secretary.

#### L. U. NO. 45, BUFFALO, N. Y.

Editor:

Here it is after July 4 and everything in and around Buffalo is just about the same regarding work for the outside electricians, as it was a month ago, just enough to keep all the boys working, nothing new stirring.

Local No. 45 elected nearly all new officers at our last meeting, and I was told it was quite a spirited meeting, seventy-five votes being cast. Following is a list of the officers:

President, Joseph (Father) Weger.  
 Vice President, Anthony Farey.  
 Recording Secretary, F. H. Lamme.  
 Treasurer, Byron Earl.  
 Trustee, Geo. E. Brock (long term):  
 Trustee, John Lusk (short term).  
 Foreman, Lawrence Porter.  
 Inspectors, Stanley Hall, first; Edw. Wedgery, second.  
 Executive Board, Wm. J. Fish, John Lusk, F. H. Lamme, Stanley Hall, F. H. Shoemaker, Al. Cunningham, W. R. McLean.

Business Agent, Al. Cunningham.  
 Last Friday morning our Business Agent, Bro. Al. Cunningham, met with quite a serious accident. While sitting in the Law Exchange Building, the ceiling fell on top of him, and he was carried out unconscious, and taken to his home with concussion of the brain. This was what I learned from the newspaper, but some of the boys since have gone over to see him, and he is so low that nobody can see him. It is reported now, that he has a fractured skull, here's hoping that

he will recover and be among us again in the near future.

Well the boys from some of the locals of the State (about 1/3 of them) met in Utica June 25-26 and formed the New York State Association of Electrical Workers, the full report will come from the Secretary-Treasurer of said Association.

Some of the Locals were under the impression that it was going to be along the same lines as the old D. C., so they did not send delegates, but it is a good deal different; it is along similar lines as the Illinois Legislative League. I was delegate from Local No. 45.

Well, it will soon be time for the St. Paul convention, and if all Locals are as interested in the Constitution as we are here, we will have nearly a new set of laws to govern us.

All the boys working for the home in Rochester are on strike to better their conditions, the girls also are out, here's hoping that they will be successful, as that will have a tendency to help us out through the State.

Local No. 45 was also on the verge of going out last week, when the company tried to misinterpret one clause in our agreement, but after several meetings, and though the committee everything is settled for the time being. Wishing all the boys in the Brotherhood every success, I beg to remain,

Fraternally yours,

W. R. M.,

Press Secretary, Local No. 45.

Well, once again we meet in our own publication. It is getting to be a better paper and the editor is to be congratulated upon his efforts.

Work is still slack on the coast, but we hear good news from Butte. Alaska has no prospects for the near future.

I am glad to see the matter of insurance coming up. It is a matter of vital importance to our members. It is not a matter of philanthropy, just a matter of business, but one of the sweetest business that is on God's green earth. It is so sweet, so tender, so far reaching that its gentle hand dares to reach even beyond the portals of the grave to sustain and comfort those you leave behind you.

Even if some of the brothers are well fixed up a panic might come up. They have come before and will come again. The bottom drops out of their estate and at that time they may pass away. And the banks refuse to loan on your estate. What are the wife and kids going to do, then?

Why not, for the sake of the family,

be prepared for any emergency. With the backing of our international, our insurance would be as good as a government bond.

When on your last purchase of a piece of real estate, a piece of damp, malarial tract, piece, or parcel of land, lying, being, and situate, etc., and bounded as follows: Beginning at a point and running six feet east thence south four feet hence west six feet, hence north four feet, six feet deep.

Then when the widow dismissed the hack, are you going to take your love with you or are you going to leave it behind to cheer and cherish for time to come?

Insurance has been rejected by some companies for the kind of work our men do, so that our brothers have felt that they have been discriminated against. So let our brotherhood, that protects our living conditions, start the ball a-rolling in the matter of insurance.

L. U. NO. 103, BOSTON, MASS.

Editor:

Here it is again the good old summer half gone and a few of the boys out of work. But I will say that business is picking up a little. But as a rule at this time of the year everybody should be working steady. But I guess those good old days are gone. But I hope they will come again. Well, since my last letter we have had our annual election of officers. And it was some election. Thirty candidates for eight places on the ex-board, eighteen for five convention delegates, four candidates for Business Agents. The members turned out in full strength at the polls. And it was the largest vote ever cast by the Local. The interest shown a mayoralty contest had nothing on it.

The largest fight was on convention delegates. There were heavyweights, lightweights, featherweights and even windowweights running for the five coveted positions. The ballot committee had an all night job counting the ballots, and it is some job, as anyone whoever served on one will agree with me.

Well anyway No. 103 elected a very good set of officers for the ensuing year, who, I know, will deliver the goods and who haven't got any of that yellow substance running up their backs. The officers elected are as follows: President, Martin T. Joyce; Vice President, Harry F. Vinton; Financial Secretary, Frank L. Kelley; Recording Secretary, Herbert C. Deans; Press Secretary, George E. Capelle; Treasurer, Theo. Gould; Business Agents, E. L. Dennis and J. J. Smith; Executive Board, Geo. E. Capelle, E. L. Dennis, Steve Murphy, John Smith, Jas. Kilroe, L. Kimball, Harry F. Vinton, John Queeney, Hebert Deans, Martin T. Joyce, Frank L. Kelley; Delegates to the St. Paul convention, Geo. E. Capelle, Herbert F. Dallas, Martin T. Joyce, E. L. Dennis, John J. Queeney; Alternates, Wm. J. Roberts, James E. Nichols and Harry F. Vinton.

And now I wish to warn the Brotherhood and also the delegates to the convention to look out for the "water wagon five" from No. 103 and it will be well for Frank Fisher to take notice and see that the storekeepers have enough grape juice on hand to supply the Boston representatives thirst. I will also give a confidential tip; one of the party

takes an occasional strong lemonade. There is one other important feature of the Boston delegation. Marty Joyce has given me his word that he will not lead any of those "lullaby singers" from Minneapolis to the altar while on his trip. Marty says he will stick close to me on this single blessedness game, so the boys of No. 103 will have no fear for Marty and myself coming back with any of Little boy Fisher's neighbors from the Middle West.

In one of my last letters I stated that Jimmy Nichols gave up his trip to England, but since then he took the trip and is back again amongst us.

Bro. Andy Johnson is laid up with a badly sprained back, and will be unable to go to work for some time. He was lifting a safe on the Ampere Clubs' houseboat, and it was too much for him.

I will close now and enclosed is a copy of the bill passed by the Massachusetts Legislature for licensing electricians and contractors. As I know the Brotherhood at large would like to read it.

Wishing all success, I remain,

Fraternally yours,

Major Capelle.

Licensing bill for electricians as passed by the Massachusetts Legislature to take effect September 1, 1915.

[General Act.]

[Chap. 296.]

An Act relative to the registration of persons, firms and corporations designing to install wires or apparatus for electric light, heat or power purposes.

Be it enacted, etc., as follows:

Section 1. Except as hereinafter provided, no person, firm or corporation shall, after the first day of September, nineteen hundred and fifteen, enter into, engage in, or work at the business of installing wires, conduits, apparatus, fixtures or other appliances for carrying or using electricity for light, heat or power purposes in this commonwealth, either as a master or employing electrician or as a journeyman electrician, unless such person, firm, or corporation shall have received a license or certificate therefor, issued by the board provided for in section two of this act and in accordance with the provisions hereinafter set forth.

The words "master or employing electrician" as used in this act shall mean a corporation, firm or person, having a regular place of business, who, by the employment of journeymen, performs the work of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

The word "journeyman" as used in this act shall mean a person who does any work of installing wires, conduits, apparatus, fixtures and other appliances for hire.

Sec. 2. On and after the first day of July, in the year nineteen hundred and fifteen, the chairman of the civil service commission, the fire prevention commissioner for the metropolitan district and the commissioner of education shall constitute the state examiners of electricians. They shall employ as clerk a practical electrician, who is a wage earner, and a citizen of the commonwealth, who has had at least ten years' experience in the installation of wires and appliances for carrying electricity for light, heat or power purposes. He shall receive such salary as shall be determined by the state examiners, subject to the approval of the governor and council, and shall hold his office for a term of three years. The three examiners shall receive no compensation for their services under the terms of this act. The compensation of the clerk and the traveling and other necessary expenses of the state examiners, not however to exceed five hundred dollars in the aggregate for each of the members thereof, shall, when approved by the governor and council, be paid from the treasury of the commonwealth.

The state examiners of electricians may make necessary rules for the proper performance of their duties.

They shall hold frequent examinations in the city of Boston, and, twice in each year, shall hold examinations in at least five other convenient places within the commonwealth, and they may hold annual or occasional examinations in other places. Public notice shall be given of all examinations.

The state examiners of electricians shall annually, on or before the first Wednesday in January, transmit to the secretary of the commonwealth a report to the general court of its doings.

In the conduct of the examinations they shall make uniform requirements for all cities and towns, which may be revised from time to time, as circumstances may require. Said examinations shall be sufficiently frequent to give ample opportunity for all applicants to be thoroughly and carefully examined, and may be supervised by one or more of the members of the board, but no licenses shall be granted without the sanction of the board. Examinations may be given in writing or practical work, as deemed most advisable by the board.

The records of the meeting of said board shall be open for inspection at all times, and the board shall have printed annually a manual of its regulations, including the name of all licensees.

Sec. 3. (1) Two forms of licenses shall be issued:—The first, hereinafter referred to as "certificate A", shall be known as "master electrician's certificate," the second, hereinafter referred

to as "certificate B," shall be known as a "journeyman electrician's certificate."

A "master's certificate" shall be issued to any person, firm or corporation engaged in or about to engage in the business of installing electrical wires, conduits, apparatus, fixtures and other electrical appliances, that shall have qualified under the provisions of this act. A certificate of registration shall be issued specifying the name of the person, firm or corporation so applying, and the name of the person passing said examination, by which he or it shall be authorized to enter upon or engage in business as set forth therein: provided, however, that any person, firm or corporation that has been engaged in said business for at least five years next prior to the date of the application shall not be required to pass said examination, but shall present proof of fitness.

The holding of "certificate A" shall not entitle the holder individually to engage in or perform the actual work of installing electric wires, conduits and appliances as previously described in this act, but shall entitle him to conduct business as an employing or master electrician.

(2) "Certificate B," or a journeyman electrician's license, shall be granted to any person who has passed an examination before the examining board provided for in this act, or who shall present proof of fitness and that he has gained his livelihood by the occupation of electrician for five consecutive years next prior to the date of application. A certificate shall be issued specifying the name of the person so engaged, by which certificate such person shall be authorized to enter upon or engage in the occupation of journeyman electrician. Every person desiring an examination shall make application therefor in writing accompanied by the proper fee. The fee for an examination for certificate "A" shall be twenty-five dollars and that for certificate "B" shall be one dollar. An applicant who fails in his examination shall not have his fee returned to him but shall be entitled to one re-examination free of charge. For each subsequent re-examination, he shall pay fifteen dollars in the case of certificate "A" and fifty cents in the case of certificate "B".

(3) All certificates "A" described in paragraph (1) of this section shall expire on the thirty-first day of July in each year, but may be renewed by the same person, firm or corporation, as represented by one or more of its members or officers, without further examination, upon the payment of a fee of fifteen dollars, application therefor being made during the month next prior to said expiration of said certificate.

(4) All certificates "B" described in paragraph (2) of this section shall expire

on the thirty-first day of July in each year, but may be renewed upon the payment of a fee of fifty cents, and upon the same conditions set forth in paragraph (3)) of this section.

(5) All holders of certificates "A" shall keep their certificate of registration displayed in a conspicuous place in their principal offices or places of business, and all holders of certificates "B" shall be furnished by said board with evidence of their having been so licensed, in card form or otherwise, which shall be carried on the person of the licensee and exhibited on request.

Sec. 4. No certificates issued under the provisions of this act, to either master or journeyman, shall be assignable or transferable. Said certificates may be suspended or revoked by the board of examiners upon failure or refusal of the licensee to comply with the rules and requirements of said business as set forth by the board of gas and electric light commissioners, and for other and sufficient causes after a hearing has been held. Such suspension or revocation by said board shall be subject to review by the board of gas and electric light commissioners.

Sec. 5. Any person, firm or corporation, or employee thereof, and any representative, or any member or officer of such firm or corporation individually entering upon or engaging in the business and work hereinbefore defined, without having complied with the provisions of this act, shall be punished by a fine of not less than ten dollars nor more than one hundred dollars for the first offence, and for a second offence by a fine of not less than fifty nor more than five hundred dollars, or by six months' imprisonment in the house of correction, or by both such fine and imprisonment.

Sec. 6. No person, firm or corporation holding a master's certificate shall be held liable for work done by any of his or its employees without authorization unless it shall appear that such work was done with his or its knowledge or consent or by his or its authorization.

All fees and fines collected under the provisions of this act shall be paid into the treasury of the commonwealth as hereinbefore provided.

Sec. 7. This act shall not apply to the installation, repairing and wiring of elevators or to work in connection with the erection, construction, maintenance or repair of lines for the transmission of electricity from the source of supply to the service switch on the premises where it is used by municipal electric plants, by electric companies as defined in section one of chapter seven hundred and forty-two of the acts of the year nineteen hundred and fourteen, or by gas companies authorized to engage in the

business of making or selling electricity to street railway companies or by electric railroad companies or by railroad companies; nor to the work of such plants or companies on premises owned or controlled by them; nor to the work of said municipal electric plants or of said electric or gas companies in installing, maintaining and repairing, on the premises of customers, service connections and meters and other apparatus and appliances which remain the property of such plants or companies after installation; nor to work in connection with the lighting of streets, alleys, private ways or private or public parks, areas or squares; nor to the work of companies incorporated for the transmission of intelligence by electricity in installing, maintaining or repairing wires, apparatus, fixtures or other appliances used in the business of such companies and necessary for or incident to such business, and whether such wires, conduits, apparatus, fixtures or other appliances are on its own premises or otherwise.

Sec. 8. Nothing in this act shall be construed as forbidding the employment of learners or apprentices working with and under the direct personal supervision of journeymen electricians duly certified as provided in this act.

Electricians employed by theatrical companies may install such temporary wiring and appliances as may be required for the purpose of the engagement of any such company, subject to the supervision of some person licensed under the provisions of the act.

Electricians regularly employed by firms or corporations other than holders of class "A" certificates may install such electrical wiring, conduits and appliances or make such repairs as may be required only on the premises and property of said firms or corporations: provided, that electricians hold a journeyman's license and have complied with all provisions set forth in this act.

Sec. 9. Any person applying for a journeyman's license who makes any misstatement as to his experience, or other qualifications, or any person, firm or corporation subscribing to or vouching for any such misstatement, shall be liable to the penalties set forth in section four of this act.

Section 10. All acts and parts of acts inconsistent herewith are hereby repealed.

Sec. 11. This act shall take upon its passage, except that its provisions imposing penalties shall not become operative until the board shall have been organized and at least sixty days shall have been allowed to enable applicants to secure licenses or certificates. [Approved May 28, 1915.]

Editor:

I am glad at this time I can say that work is a little better than the last time I wrote, but we can still stand a lot more than we have and not have to call on any outside help, as we have quite a few brothers on our unemployed list. Work has been very dull here this summer as has been elsewhere from what I can see by The Worker.

We are taking in a few new members, but most of them are backward and seem afraid to talk to you, especially the Edison Light men, for it has been pretty hard to get them started and when you think you have them you will find out you have been watched by some gum shoe man of the company and your man is sent somewhere else or out of a job.

Last winter Local No. 104 with several other Locals went before the Boston City Council and held up the contract for the street lighting of the City of Boston. And with the aid of the city council fought the contract and in the end saved the city a nice little sum of money and got a better contract all together and also got a clause stricken out of the Edison Company's employment application blank, where it asks if you belong to any labor union or not, and that they would not discriminate against union men.

The City Council went on record to help the unions if any men were discriminated against, and about two months later one of our brothers who worked for the Edison Light Co. died, and three brothers working there asked permission to attend the funeral and acted as pall bearers with the result that three days later they received a notice that their services were no longer required which put them out of a job and could get no reason for their being discharged only retrenchment of expenses and they were the three oldest men on the job, and in a day or so new men were put in their places. The Local appointed a committee; they went before the city council and are trying to have the men reinstated, but at present it is not settled, but have another hearing before the city council in the near future and are in hopes we will win out just to show them where they fit, but are up against a pretty hard company, as they have the best advice that money can buy as they are the only electric light company in the city and have things pretty well their own way.

I suppose most of the brothers have got pretty well posted on the Federal League in base ball, but we have what we call a Federal League in the I. B. E. W. here in Boston, for they are not affiliated with organized labor and I don't think they

will be unless they join in with Local No. 104 where they belong. Quite a number of them were members. Several of the foremen for the Telephone Co. got together and started talking to their men and have started what they call a Brotherhood of Telephone Linemen and no one only telephone men can belong, but No. 104 has gone on record not to grant them a charter which they have been trying to get. I hope the International Officers don't get misled by them and grant any charter without first looking over the field as they have used the Local to get what they are now getting and after they have got an eight hour day, and what I would say as good wages as most companies pay, to pull away and try to take the members away from No. 104. Local No. 104 have what we call a conference board which looks after the telephone employees only and any grievances can be taken to the officials of the Telephone Co. and in most cases with good results, but now the Telephone Co. has two different committees to meet as the Federal League has gone down to the official and presented their own cases, which is going to cause trouble if it keeps up. We have tried to get them to come back where they belong, but with no results as yet and think it would be a good place for some of our International Officers to drop in and see what they can do before it is too late.

In the May number of The Worker I see several good letters on the traveler. I want to say I am of the same opinion that any traveler should be entitled to the support of his fellow-brothers wherever he may be as long as his card is not void, as he has got to pay in advance in order to take out a traveling card, and it is pretty hard to keep some of the members from going behind. Don't knock the traveler, but give him a hand if possible, as he may not stay long. It is pretty hard to tell how long it will be before you may take out a card yourself and you would be a pretty peeved man if you didn't get a lift with a good paid-up card.

One brother mentioned that the Postal Telegraph is on the unfair list. I would like to say we have quite a few Postal Telegraph men and also most of the Western Union men that are linemen in and around Boston. I would like to hear from any brother how the telegraph linemen are in his locality, as we would like to know how the wages and conditions are in different parts of the country. They tell us we have the best wages and conditions of any place. If that's the case I pity the other fellows for it is pretty bad here. Any brother that can I hope will let us know either through The Worker or by mail.

Hoping we hear from some of the brothers in the near future, I am

Yours truly,

H. W. Shivers,  
10 Nelson St., Dorchester, Mass.

**L. U. NO. 110, ST. PAUL, MINN.**

Editor:

Just a few lines to let the Brotherhood know that Local Union No. 110 is still on the map and working hard preparing for the proper care of the largest convention of our Brotherhood to be held in this city in September.

Work in St. Paul this season is very dull. We have a number of our members who are still loafing and from the present outlook there is little or no work of any consequence in sight, so I would advise all traveling members to leave St. Paul off their list for this reason.

The convention committee on which your humble servant is chairman requests all delegates to the incoming convention wishing reservations made, notify me as soon as possible just about what price they wish to pay so that suitable rooms can be reserved for them before they arrive, also that they may receive notice just what hotel to go to. We have a number of good hotels here and the accommodations in all are good, and it is the desire to have all delegates placed in a satisfactory manner, so if you will communicate with us we will see to it that you are properly placed upon your arrival.

We are now making provisions to have a special train leave Chicago either on Saturday night or Sunday morning before the convention so that all the eastern and southern delegates may reach Chicago in time to all leave for St. Paul on the same train. Full details of this matter will be mailed to each delegate when elected just the time the train will leave, also the date, and it is hoped you will co-operate in making this last 14-hour trip a grand one. Anyway we have plenty of time and you will receive notice in plenty of time to notify us as to whether or not we shall make reservations for you on the train.

This should be one of the grandest conventions of the Brotherhood and all Local Unions should elect the ablest men to represent them, and it is our earnest hope that every Local Union will devise ways and means of sending a delegate to the convention. This can be done if the membership of each Local Union will lend a proper helping hand as they should do if they have the interest of their Union at heart as they should. The future progress of our now re-united Brotherhood depends upon the efforts of the individual membership as well as the

efforts of the International officers. If your Local Union is not a success, it is your fault just as much as it is the fault of any other member. Never let yourself be guided by the fellow who remains away from meetings and then raises a "holler" about everything that was done at the meeting. Keep your eye on this fellow as he is one of the fellows who would like to see the Union out of existence as far as he is concerned, and that kind of a fellow will be most invariably found in all Local Unions, and of course the laws of this country protects him.

One thing all members should remember, that the knocker is not a Union booster, and a curb should be put on him no matter who he is or what he is as he is no good for our common cause.

With best wishes for the success of our Brotherhood, and hoping for a successful convention, I beg to remain,

Fraternally yours,

Frank Fisher,  
Business Agent, L. U. No. 110.

Great Falls, Mont., is still on the firing line with good paid-up membership. Work has been to stand still around this section of the country, but is getting to look little brighter. Bro. Tom. O'Mara was elected at our last meeting delegate to the convention at St. Paul in September. Bro. J. T. Gray, our old Financial Secretary, is spending a few weeks at his old home in Seattle. Wishing the I. B. E. W. every possible success.

Well, brothers, we have had our election of officers Friday, June 25, and they wished this job on me, so I guess I will have to do my best and hold it down. After our election we had the married men and single men barefoot race, which Bro. Hitt was the winner in a 300-yard dash and then the refreshments followed. I guess you know what they were German soup.

The officers for the coming year are as follows:

President, W. Zirkenbach.

Vice President, L. Taris.

Financial Secretary and Treasurer, H. M. Miller.

Recording Secretary, D. J. Byrne.

Business Agent, H. C. Brandt.

Brothers, I am going to start out with facts that are existing here at the present time the employers are getting to realize what The Electrical Worker is,

several years back we could not get any one of them to ask for your card, but now things here changed a bit we have about 90 percent of the town organized at the present time for which you have to give the old boys of No. 130 and their live Business Agent credit, for we sure worked heart and hand to bring this Local to the top, and boys are coming to us every day.

We have a labor forward movement started here which, I think, will do a lot of good to make the unorganized workers of this city realize how long they have been asleep. Most meetings are being held in different sections of the city and organizers from different trades unions are the speakers.

Now, boys, I think we have the best chance in the world to organize; you know when our commission of commerce comes up to our meetings and ask us to cooperate, so we can make conditions here for a worker and his family to live decent.

We have also formed a metal trades council here which was not in existence for years, so I hope, brothers, that N. O. will creep to its feet some day and stand there, as this town was certainly crushed to pieces.

Brothers, I can't tell you much more at the present time, but I do hope when you come to N. O. that you will look up Local No. 130 and don't ever think its out of existence, as some of our brothers did a few months back. I guess they thought they were going to pull something over on us, but that Business Agent we got now, I don't think he ever over looks much as he is certainly on the job.

Trusting that any brother who floats this way in the near future he will take heed to this little verse above, I remain

Yours fraternally,

A. M. Hull,  
Press Secretary.

The election of officers of this Local was held Friday evening, June 25, and believe me it was some election—not a dull moment, until the polls closed. Geo. F. Mahoney was reelected as President. John W. Dillon elected Vice President. The big contest was for a place on the Conference Board. Geo. L. Kelley (whose slogan was "win in a walk") was high lines in this contest "copping" first place, Jim Egan came second and ex-President Geo. F. Backus done a "come back" stunt and landed third place. The above board is composed of three members, and adjust all grievances with the company. The contest for a place to go to the International convention at St. Paul was a Thriller. Many conceded a place to Geo. L. Kelley and he landed first place the contest for the second delegate was a spirited one and Jim Egan beat Bill Glacken by eleven votes much to the surprise of many and Bill has asked for a recount. By the way, if any of the telephone locals send delegates to St. Paul, don't forget to make it a point to call on Kelley and Egan, and you will find they will be pleased to give you any information you may desire in regards to our Local.

Geo. F. Backus, J. Walter Mullin and Jos. D. McLaughlin were elected as delegate to the state branch of the A. F. of L. at New Bedford. Backus and Mullin are "seasoned convention men and McLaughlin will see that they keep busy on the firing line. If Joe gets started at New Bedford the way he does in his own Local sometimes he will make some of the old timer sit up and take notice. I had the job of Press Secretary wished on me—no oppositions. That the reason I won out I guess for they gave me enough votes for to win a booby prize in my contest for a place on the Conference Board, I can picture the broad grin on the face of some when they read this in The Worker. W. H. Glacken was high liner in the contest for a place on the executive board. Bill is the only member, who is on the board which served last year, and with his experience would be a good man to elect as chairman.

A Press Secretary job is a peculiar one—if you write anything someone gets "peevd" and if you don't write you are called a "fat head" or several things that would not look good in print but who cares—not I.

Nearly forgot to state that owing to the large number of candidates we had the largest vote ever cast and it took the ten counters until late Saturday, June 26 to count the ballots and give out the result. This Local has 800 mem-

bers and when you figure that 95 percent voted you can judge of the great interest in the election.

Friday evening, July 2, ex-President Geo. F. Backus installed the new officials and after the installation our able entertainment committee put on a vanderbilt show. We had cigars and refreshments and the boys all had a good evening's entertainment.

Your respectfully,

J. J. Daly,  
Press Secretary.

Editor:

Local No. 155 is still in the lime light, we have recently taken in a few new members and lost none so one can readily see we are hitting the ball and fielding perfectly. We are confining our efforts to electing the best man available to represent this local at the convention and his tenor will be strong for the getting-together plan, which will be a solid foundation for a grater success. It's a 1,000 to 1 shot that the small toad never got anywhere in the big puddle and if we expect to run in parallel with the modern world we must branch out.

The electrical industry is one of the largest industries in the world today and there is no reason why we can't be the strongest organization in the world.

The solution is: Get all those working at the electrical industry and you have the mass formation.

About all brothers are working as far as I know, as I have seen no distress signals,

Fraternally,

G. L. Phillips.

As we have not inserted an article in The Worker for some time and having been elected Press Secretary, I am going to give out some news to the Brotherhood. Local No. 157, Moving Picture Operators, I. B. of E. W., is gaining in membership, and through the assistance of Local No. 134, we have organized a number of new theatres in and out of the city. The latest move we have made is, to compel a member of Local No. 110, I. A. T. S. E., to employ one of our men in Riverview Park. It makes victory all the better to know that the above mentioned man is also a steward of Local No. 110. We also have control of Forest Park.

The members of Local No. 157 are requested to attend meetings more than what they do, and they will then learn a lot which will be of advantage to them.

As this is my first venture as Press

Secretary of Local No. 157, I will cut this article short, but before closing I wish to notify the Brotherhood that our worthy President, Wm. L. Finstad, is very sick in bed, and I personally would like to see the members of Local pay him a visit, his address can be obtained from the Secretary of the Local.

There is a lot of good dope pending, that I cannot mention at this time, wishing the Brotherhood all the success in the world.

I remain,

Chas. R. Hall,  
Press Secretary, Local No. 157.

L. U. NO. 163, WILKES BARRE, PA.

Editor:

The problem to solve, in my judgment, what confronts the electrical workers for the growth of the Brotherhood in the future, is to organize more permanently.

And in my opinion the solution is that the next convention adopt and put in to operation a higher mortuary benefit; also to enact a practical and effective seniority clause to be inserted in all working agreements with the employer, that will help to keep our members employed and in advancement and above the clutch of the unscrupulous employer who preaches one thing and practices another, without due and sufficient justification.

In our Local efforts to organize we find that with very few exceptions the non-union electrical workers are ex-members of the Brotherhood; and in my limited experience, I am satisfied that in the jurisdictional territory of the Brotherhood, that they are a large percentage of electrical workers who are ex-members; and the remedy for it I really believe is a reasonable high life insurance in the Brotherhood.

Of course the factional trouble in the International Union in the past had its disastrous effect on the growth of the Brotherhood; because every opportunity to organize was torn asunder while the struggle was going on; but amalgamation has come with good effect and the sore spots mending if not all healed; and our members brought to the realization of their position and duty to the Brotherhood now and in the future.

And as you know that it took the war of the North and the South in the sixties to unite the States of the Union, and it made the United States of America the greatest republic on earth.

Then it is gratifying to know that we have settled the conflict in our organization, that caused so many sacrifices among our members and stunted at the time the growth of the Brotherhood; and that we are no longer a farce; and with a reasonable memory to recall the experience of the past, and endowed with

the wisdom of a stricter sense of duty to guide us in the future; and inspired with the knowledge of a re-united Brotherhood, progressing on a solid rock base; it is more reasonable then ever for us to believe that we can accomplish the purpose for which we are organized, a long lines of trade union principles; that the concern of one is the concern of all.

At the present, the non-union electrical workers who join the union must be in the Brotherhood one year before becoming beneficial at death; to make it more clear, for your consideration, I will quote Section 1 of Article 12 of the Constitution.

#### ARTICLE XII. Funeral Benefits.

Section 1. Every member in fellowship and in continuous good standing in the I. B. E. W. for one year or more, but less than two years preceding his death shall, in case of death, be entitled to a funeral benefit in the sum of one hundred dollars (\$100.00), except as provided in Section 3, Article 6.

If the deceased has been in continuous good standing for two years or longer immediately preceding his death, benefits shall be allowed as follows:

2 yrs. or more, but less than 3 yrs.	\$150.00
3 yrs. or more, but less than 4 yrs.	200.00
4 yrs. or more, but less than 5 yrs.	250.00
5 yrs. or more.....	300.00

Now I claim that the above funeral benefits is not inspiring for non-union electrical workers to join the union; and at its maximum rate, it is not sufficient for members of the Brotherhood.

Now for an illustration, suppose we would change the present funeral benefit rates, to conform to my imagination for a moment to read as follows:

#### ARTICLE XII. Funeral Benefits.

Section 1. Every member in fellowship and in continuous good standing in the I. B. E. W. for three months or more, but less than one year preceding his death shall, in case of death, be entitled to a funeral benefit in the sum of five hundred dollars (\$500.00) except as provided in Section 3, Article 6.

If the deceased has been in continuous good standing for one year or longer immediately preceding his death, benefits shall be allowed as follows:

1 yr. or more, but less than 3 yrs.	\$600.00
2 yrs. or more, but less than 3 yrs.	700.00
3 yrs. or more, but less than 4 yrs.	800.00
4 yrs. or more, but less than 5 yrs.	900.00
5 yrs. or more.....	1000.00

To me the reading of the imaginary changed funeral benefit plan, is very consoling in thought; and every member knows that a high mortuary benefit, would be a great magnet to secure new members and a great factor in keeping all members in good standing; and prove

helpful in a general way to the Brotherhood.

The members of the Brotherhood want a reasonable high life insurance, but the rates of the old line insurance companies are not appealing to electrical workers, and as a result many of our brothers are without sufficient life insurance protection to tide their families over respectfully after death; and if the railroad Brotherhoods and other labor organizations are successfully operating high life insurance; I would like to know why we can't do so; because a high reasonable mortuary benefit, will result in a larger and a grander Brotherhood.

Therefore, I suggest through The Worker that President McNulty appoint a committee of seven members, one from each International Executive Board District; or the members of the Executive Board if more convenient, or the Constitutional Committee that will be in session before the next convention; to be authorized to employ an expert or two, to inquire well into the mortality rate of the Brotherhood for a few years back, and also the per-capita revenue and assessments; and to secure any other information that is necessary for them to have for consideration, for to strike a base of average to determine and to settle on a plan of reasonable life insurance, that the Brotherhood can operate successfully for a reasonable per-capita or assessment; to be presented to the delegates at the next convention for consideration.

This is a big problem and it is of vital importance to know the mortality rate, and the per-capita revenue and assessments of the Brotherhood, to solve it intelligently; and if my suggestion or one similar is carried out the delegates to the next convention or any other member who has a plan of life insurance or suggestion, can present them to the committee which will be very helpful in the consideration of this matter; and the committee can put into the hands of all the delegates for consideration, at the opening of the convention in pamphlet form the plan of insurance that they have settled on; and the delegates can judge for themselves whether the plan is, or is not a safe and sound proposition when it comes up for final action.

Let us hear more through The Worker on this matter.

At the present work is not very good here and many of our brothers who helped to increase the wages and improved the conditions are idle, and a fine lot of rumps are receiving the benefits of their efforts without cost.

We are trying to get into position to put up an effective fight for a larger membership, but we are still handicapped and at the present hope is out of sight;

but we will keep on trying we will not quit.

There are many of our members working or floating through the country and they are deserving of every consideration that can be extended to them by the members of the Brotherhood; and the home guards of which I am one wish them good luck on their way and we hope to see them all in the near future.

Brother McIntire, International Organizer, and Brother Boyle, Business Agent of Local No. 81 of Scranton, dropped in to town on June 8 last and flew out the same day; we expected that Brother McIntire would stay for some time and help to rouse a sentiment to build up our Local, but pressing business elsewhere forced him to leave in a few hours. I was out of town and I am sorry that I did not see him.

With best wishes for the success of the Brotherhood.

Fraternally yours,  
Anthony (Love) Lynch,  
Press Secretary.

About fifteen of the brothers went to Selma last month in six automobiles contributed by the brothers who are owners of such luxuries, the trip was a very delightful one, not so much the ride in the cool evening as that we secured the application of W. K. Peters of Hanford, who was relieving wire chief at Selma for a few years; Bro. Peters thought so well of that he came back to Fresno with us. We are glad to welcome Bro. Peters into our midst, and ex-Bro. Ralph Hague has again given us his application we are always glad to welcome any of the old brothers as well as new ones in No. 169.

Bro. G. M. DeVore was elected as delegate to the convention at St. Paul, and Bro. M. C. Derr was elected as alternate.

Bro. W. C. Finley handed in his resignation as Secretary and Treasurer, account not having time to devote to the office. A Secretary-Treasurer will be elected July 14.

Bro. F. M. Henderson is on vacation relieved by Bro. Barker.

Bro. Peters has gone to Reno, Nevada, temporary relieved by Bro. Fred Robinson from Fresno Exchange.

The semi-annual election of officers of Local No. 212, which was held Wednesday evening, June 30, 1915, gave every in-

dication that members, one and all, are greatly interested in the welfare of No. 212. A full attendance of members were present, each one eager and certain that his selected candidates for various offices would be declared victors when the final returns would be read.

Although official returns indicated a close vote for some offices, a few candidates walked in without any opposition. Bro. "Cap" Cullen who has always used his best interests for No. 212, even at times long past, when the financial condition of No. 212 warranted a very small compensation, received a full count of votes cast, there being no other aspirant for the office which he has long and justly taken care of—same being Business Representative.

Also a word for our president and other chair officers, no greater tribute could be paid them for their earnest and attentive work in the past than their re-election, which was declared in every case by the official returns.

The following officers were elected to serve from July 1, 1915, to July 1, 1916:

President, J. McFadden; Vice President, J. Schwartz; Treasurer, A. Behman; Financial Secretary, A. Liebenrood; Recording Secretary, W. Slater; Business Representative, J. Cullen; Foreman, J. Barrett; Inspectors, L. A. Allen and F. Marty; Trustee (one year) E. Simonton; Examining Board; J. Doty, C. McLain, P. Cox, H. DeYoung, M. Loesch; Sick Committee, L. Allen, chairman; Executive Board, T. Higgins, J. Donaldson, J. Seibert; Delegates to Building Trades Council, J. Cullen, J. Donaldson, W. McTrenter, I. Smith; Delegates to Central Labor Council, J. Cullen, G. Rost, W. McTrenter, L. A. Allen, T. Lidell; Delegates to Ky. Trades and Labor Assembly, T. Higgins, C. McLain, J. Tennant; Press Secretary, E. Simonton.

With best wishes to the I. B. E. W., we remain fraternally yours,

#### L. U. NO. 213, VANCOUVER, B. C.

Editor:

Well, Brothers, I am able to report conditions around Vancouver as improving a little. The Telephone Co. has started a little work, and the Western Power Co. are talking of doing a little work, and I guess the B. C. E. Co. will do a little after they get squared up with the Electrical Workers, who by the way are waiting to see what the B. C. E. Co. intends. This company applied for the termination of their agreement with us. And on account of the financial hard times, which has affected the company as well as the country, they showed their great kindness to us, by offering us,

a ten per cent cut, which, of course, we turned down. The company's officials were very good, they asked our Business Agent and First Vice President of the P. D. Co., if they would let them address the Local, and explain why they were forced to make the cut, which was granted them by our officers and was duly approved of by the members of Local No. 213.

Well, they attended our next meeting night and gave their reasons why they were forced to make the cut which was listened to with attention and courtesy, but the Brothers did not see it their way, and the company was notified that we would accept nothing less than we had, so I presume they are going to apply for a Conciliation Board, but up to time of writing they have not applied. Of course they are quite busy now, for they have the Street Carmen Union to attend to. They have already applied for a Conciliation Board to settle their dispute, which was the same as ours, ten per cent cut and no conditions. As most of the Brothers know we are affiliated with the Carmen's Union, known as the Light Power or Transportation Council, which should help both Unions to an amicable settlement. The Local has been quite busy of late passing on the proposed amendments in the new Constitution, which will be the all-important questions at our next Convention, and while speaking of the Convention, I might say that we have already elected our delegates to represent us, which I think will do us justice, as they are both good, staunch Union men, men that are thoroughly conversant with the labor movement, especially our worthy Business Agent who has made a study of the labor movement for the past twenty-six years, who knows what he is talking about, when he talks, and despite the hard times, the lack of work, he is still bringing in new members and getting all kinds of delinquents to pay up, which shows his good qualities as an organizer these hard times.

Our Business Agent is Brother E. H. Morrison, whom a great many of the Brothers know. Our other delegate is Brother William Campbell. While only comparatively a young member, too, Brother Teddy Morrison, our Business Agent, is also well informed in the labor movement, and was chairman of our Constitution Committee and is thoroughly familiar with the Constitution and the proposed amendments. He will be able to put up some strong arguments at the Convention. Our alternates are Brother W. G. Dunn, First Vice President of the P. D. C. and Brother H. Hogan. Brother W. G. Dunn gave the other Brothers a good close race and just finished in the money. And while speaking of Brother

Dunn, I might say, he is doing some good effective work with the aid of the Business Agents of the various Locals on the Pacific Coast. He is now with us handling our differences with the B. C. E. Co. in a most admirable manner. Brother Morrison and Brother Dunn have got the company cornered right now, and they do not know what leg they are standing on, so they are resorting to every device, to cause trouble among the members, and create a lot of dissention, but I give all the members the credit of seeing thorough all their schemes, which will open all their eyes and will make all the Brothers that much more determined to stand for their rights, and not be bamboozled by the modern Judas Iscariots.

Well, Brothers, I guess I will quit now with my regards to all Brothers I know, and the same to the Brothers I don't know, but would like to know, I remain,

Yours fraternally,

Harry Hogan,

L. U. No. 292, MINNEAPOLIS, MINN.

Editor:

Our worthy press secretary having migrated with the birds to a more southern clime, I take the liberty of writing a few lines.

Contrary to all reports which have been published in the papers in various parts of the country that things are booming in the Twin Cities, the writer wishes to state that things here are very quiet, and would advise all to stay in their own back yard as the grass in this section of the country is very short and it is all the members of the locals here can do to gather a little fodder for their subsistence.

Local Union No. 292 has had a strike for union shop, and 56¼ cents per hour since the 1st of May, and the struggle is still on, but we are determined to win and the members are standing shoulder to shoulder fighting as they have never fought before.

With the exception of some few members who have deserted and gone over to the enemy ranks, we have presented a solid front and will continue to do so until the battle is won.

The local had its regular meeting last Monday evening, and we were fortunate in having as visitors International President McNulty, Brother M. J. Boyle, of the International Executive Board, and Special Representative Ray Cleary, it is indeed a pleasure to have them with us and we hope to see more of them when the convention opens in St. Paul next September.

In reference to the convention the writer hopes that all the locals will send a delegate as things of a very important nature will come up for discussion, the brotherhood being united and it will be the largest convention that the I. B. E. W., has ever had so boost for St. Paul and see that your delegate is there.

Brother Frank Fischer, the worthy business agent of local No. 110, of St. Paul, is a very busy individual arranging details, etc., to make the convention a grand success, and to see him driving his Jitney around the saintly city would make every member of the whole I. B. E. W., shout with glee, well to be serious, I know that all who come to the convention will go away saying that it was the best they ever attended.

Brother H. H. Broach, who was formerly press secretary and a member of our local executive board, traveled southward to the Metropolis of Iowa, Des Moines, where he is at present filling the office of business agent, and from all reports he is making very good progress, and he has the best of wishes of Local No. 292, for future success.

At the last meeting of the Building Trade's Council, Brother Stanchfield, the village philosopher, in addition to holding down the chair as president of Local No. 292, was elected business agent of the council, and no doubt that we shall hear of a successful career in his official capacity as such.

For the information to all who may be delegates to the International convention, Local No. 292 elected brother Chas. A. Anderson, our past president, and Brother J. D. Hoban, financial secretary, as our representatives to the convention in St. Paul, and we feel assured that they will be heard from during the debate on the floor.

Well brothers I think, that I have taken up about all the space that will be allotted to me in this letter, and further the recording secretary of L. U. No. 292, Brother Peter Tangent, has just informed me that I am wasting the office stationery. I am with the best of wishes

for the continued success of the I. B. E. W.

Fraternally yours,

S. P. Skoog,  
Business Agent L. U. No. 292.

L. U. NO. 354, SALT LAKE CITY, UTAH.

Editor:

It has been some time since you have heard from our "Mormon Local" here in the "City of the Saints," but believe me we are still in the ring and doing things all the time.

At present things here are rather slack, but we are in hopes of seeing things pick up in the near future.

The last winter was a pretty good one for us.

The State capitol building and the Newhouse Hotel were under construction and kept our Local pretty busy, but since they have been completed several of our worthy brothers have been on the waiting list.

I would not advise any traveling brother to come this way at present on account of slack times.

It seems to me that it is a pretty hard thing to do when you shut the door in any good union man's face by taking advantage of Section 8, Article 14 of the Constitution, and I believe it can be arranged in time to come so we can do away with that section. Let's get together at our next convention and get acquainted with one another and cut out all of the old time selfishness and boost for a greater and grander Brotherhood.

Well, brothers, I won't take up any more of your valuable time so I will ring off.

Fraternally yours,

Geo. W. Fahy,  
Press Secretary.

L. U. NO. 393, HAVRE, MONT.

Editor:

For the first time during our short existence I will endeavor to let the Brothers know there is such a place in the world as Havre, Mont., and also that there is a Local here.

Yes, we are the baby Local of Montana and I think there are but few smaller Locals in the Brotherhood.

A little colony of but twelve members; good fellows, good tradesmen with good principles and all in good standing and who attend meetings regularly

Conditions exist here the same as everywhere—not much work, though we are rebuilding the telephone system but that isn't anything to make a noise about as there isn't enough of it. A little later on there will be room for perhaps two or three more men and we have them at our right hand, so don't all you fellows start

at once. But if you are on your way with a traveler in your pocket and headed this way don't forget to pay us a visit. We are not doing overtime taking care of our money, but we will try and treat you well.

We have hardly recovered from the hard winter yet, but don't worry, Brother, we aren't going to sing you that appalling little ballet, "Mother, get the Shot Gun, There's a Tramp at Our Back Door," or, more commonly known by some as "Sec. 8, Art. 14 of the Constitution"

Our Vice President, Dick Bowers, has just returned from a second trip to the hospital this spring. He has had to undergo two operations since March but is out now for good. He is looking better than he has for a year and is doing light duty with good spirits.

Well, Brother Delegates for the St. Paul Convention: Are you spending sufficient time getting doped up on what you are going to say when your turn comes?

What are you going to do for us in regards to life insurance in convention with our organization? It is my opinion that every Local should get busy and aid and assist their delegates in securing all the knowledge possible on this subject, and then instruct them to make use of it. I believe it one of the most important subject which has ever been brought up, and should be threshed out with a system.

As a matter of fact it is very hard and in many cases for an Electrical Worker to obtain and carry a life insurance policy as a protection for his loved ones who are dependent of his daily wage for existence, livelihood and education. Therefore, the I. B. E. W. should by all means devise some plan to establish a good substantial insurance for its members.

Not only would it be a grand thing for the members as an individual, but it would be one of the most inviting inducements for new members that the Brotherhood has ever set forth.

So let us get our heads together and build up a solid wall of protection against the poor farm or the wash tub for our wives and babies, or fathers and mothers. After we have died and ended the job. So that we may leave something more behind us than a worn pair of hooks and a scarred strap.

I would like very much to hear from some one else in the next issue regarding this.

With best wishes to the success of the Brotherhood, I remain,

Fraternally yours,

F. D. Richardson,  
Press Secretary.

Here goes another one from the City of Distress. I haven't any news to write this time, but will take a little space anyway so that we won't be forgotten, as we are very much alive here.

The inside men have drifted away from the fold as their Local went up in smoke some time ago and we are trying to get them in No. 414. I think we will succeed in rounding them up allright.

"Hey," the guy that wrote the piece in last month's Worker about the postalization of telephone and telegraph systems had the right dope. I think that we all ought to pull for that as I think that would be the best thing that could happen as we all would have better conditions.

Well, I think that I have popped off about enough.

Paternally yours,

O. S. Shirley,  
Press Secretary.

**L. U. NO. 442, SCHENECTADY, N. Y.**

Editor:

In looking over the correspondence in The June Worker I am more than gratified at the interest being taken by the various Locals in getting their letters in as it makes very interesting reading, and it enables all brothers to find out what is being done in other localities for the advancement of the Brotherhood. I was particularly interested in the letters from Locals Nos. 134 and 713 of Chicago. Their letters clearly outlines the object of the assault being made on them by the great electrical trust, and we members of Schenectady fully realize the importance of the decision, and the bearing it will have on the future of the shop workers who manufacture electrical appliances. Too much credit and support cannot be given to these locals of Chicago, for the fight and sacrifices they are making for a principle that means so much to the shop worker. It clearly proves that the membership of these locals are men who are organized not alone for their own interests and advancement, but for the interest and advancement of the Brotherhood as a whole, and should receive the loyal support of every organization to uphold the principle they are battling for the establishment of the union label.

Space does not permit an outline of the working conditions in the electrical industry, but the brothers can realize what it is in any industry where a piece work system exists. A system that make men like beasts trying to snap a bone away from their fellow beast and the big chief sit back and laugh at the

scramble for existence, and even with all those things, the condition in other plants outside of Schenectady are far worse, because we have organizations and have been successful in battering our way to fairly decent conditions. The cartoon in The June Worker clearly outlines the reason why the progress of labor is so slow, we spend our time battling amongst ourselves while our enemies step in and take away the things that belongs to us without a struggle, and then after we wake up and see those things gone we wonder what it was all about and try to place the blame on the other fellow and then start all over again.

Surely the workingman who makes up the brain and brawn of the world is big enough to govern himself without these foolish squables if he only stops and thinks before he leaps. So let us resolve that at our coming convention we are going to have peace and harmony and instead of trying to see how much fault we can find with the other fellow, we are going in there with a determination to eliminate for all time strife and discord and extend to the needy a helping hand.

I hope at the coming convention we will be big enough to see the necessity of increasing our per capita enough to establish a strong defence fund so that when it comes to a battle we will be on an equal footing with other trades. It is funny to hear men knocking and crying if some corporation earns about 20 percent on their money invested, but when you ask them to put their money into their organization where they can realize about 500 percent at the least why they say you are a grafter.

Well, brothers, I think I have spoken my little piece and I hope the editor will forgive me for taking up so much space, and I hope all Locals will follow the example of the Chicago Locals on the label question as it is the only salvation for the shop workers, and that at our coming convention you will help us get legislation along those lines.

Hoping to see some of the old crowd that was in Boston at St. Paul.

I remain,

Faternally yours,  
C. D. Keaveney.

I hope I am not too late to get this in The Worker this month. I have sad news this month. We lost a good brother by name of Arthur Simpson, who was killed in Paris, Texas, July 3. The committee will get the death report in on time. Bro. Simpson joined us on March 6, 1915. We are all sad over losing the good brother and hope not to lose any more of

our members. But if it be the good God will, we will have to accept and be satisfied. I wish to thank the good brother, Chas. S. Woodside of L. U. No. 277 of Wheeling, W. Va., who sent me their contract without asking for it, where there are good brothers who I wrote to asking their scale and they did not even answer my letter. Thank you, Bro. Woodside. I also want to thank all the good brothers who sent me their wage scale and contract. We got what we asked for 45c per hour, 8 hours per day, linemen and wiremen, troubleman all alike.

The city council gave us what we asked for all the way through the petition without a single exception. We have a council who believes in man getting a living wage.

Yours fraternally,  
C. C. Sutherland.

#### L. U. NO. 561, MONTREAL, CANADA.

Editor:

Well, brothers, just a few lines and a few remarks to let all brothers know that Local No. 561 of Montreal is still alive and growing. We have a mixed Local now, the shopmen and the inside wiremen, and we are all working together now for the good of organized labor, and especially the electrical end of the game.

Most of our brothers are working at present, but things have been very dull all winter, and they are yet, but we hope that things will soon pick up again.

There is one thing I can say about my Local. We have a good bunch of fighters. And our officers are always right

on the spot when they are wanted. But we find it very hard to get members in just now, they all seem to hold on to the loose change, but we know the boys will come in with us as soon as they can.

We also have a few brothers gone to the front, and some of them have been with us for a good many years, and we will be very glad to see them back with us again when this war is over.

It will certainly be a blessing when it is over, for the work will start again. Well, brothers, this my first time to send anything to The Worker. But I won't be so long again in doing so. But I would like to warn all brothers to stay away from Montreal, for we only have enough for one own brothers at present.

One thing before I close now.

Our organizer, Bro. Bastian is in the city with us just now, and he is certainly doing a lot of hard work for us, and we appreciate him very much for the good work he is doing, and Local No. 561 wishes him all success. Now wishing the I. B. E. W. every possible success, and hoping to hear from each and every Local through the Electrical Worker Journal. I am

Fraternally yours,  
E. J. Sinclair,  
Financial Secretary.

#### L. U. NO. 570, TUCSON, ARIZ.

Editor:

As it has been some time since I have written a letter for The Worker and as I have plenty of time now I will try my luck again. If I could write as interesting a letter as some of the other brothers, I would try to have a missive in each and every issue of The Worker, as I for one enjoy reading the items from different Locals.

All a person can hear around this place is "Mucho Calore" (and it sure is) or Oh, how I wish I had a skuttle of suds, as for mine I would rather have several of them as it would require some to soak up the pores.

Working conditions are getting no better fast in this jurisdiction although the Telephone Company is doing a little job here at present with a bunch that says, yes, we all have a card but at this date No. 570 has not received any of their travelers and not one of the Local boys got as much as a smell of the work and there are several of them at present with no regular pay day.

Several of the Press Secretaries state in The Worker about what percent they are organized, permit me to state that Tucson is 100 percent organized with the exceptions of the Telephone Company and they have several with a weak back or else they are narrow between the eyes as they cannot see where they will be

benefitted by having a card, the time is coming when this class will be begging for a card and then it will be our turn to laugh.

They shipped one guy in here a short time ago, namely, John W. Adams, who spells his name in capitol letters and with red ink who claims he hails from the Great North and has a card four months in the arrears at Helena. The old saying a person never gets to old to learn does not apply to John W. as he is one of those educated kind.

One sure thing if he was the man he claims he is his headquarters would be in New York City instead of Tucson, Ariz., where he is holding down the position of city foreman for the paltry sum of 110 pesos per.

Vice President Greene made us a short visit recently where he delivered a very interesting speech at an open meeting, also one at the Tucson Central Trades Council which was highly appreciated. I hope his visits in the future will be longer and not so far between.

If he has made similar addresses at the different Locals his remarks should have great weight upon the delegates of the Pacific District Council at the coming convention. The only advise I can give is for the Locals to give all things due consideration before they instruct their delegates how and who to vote for they want to remember that good fellowship does not get you anything and vote for the I. B. E. W. at large and to their best interest.

It is sure that each Local will select their best talent for this convention and with the number that will be present I feel they will make it one of the best ever held and one that the Brotherhood will be proud of for years to come. Let bygones be bygones and fight for a better and larger Brotherhood.

Owing to the fact that our funds are very small at present I am afraid we will not be able to send a delegate, but only wish we could send a good worthy brother to assist in the cause which we are all fighting for a right to live.

Well, brothers, it is now time that the plans for Labor Day are under way, let's go into this strong and make a showing in line that will make people take their hats off the electrical workers and not one that we will be ashamed of as I for one do not believe in this half way business, it is better to stay out entirely than be the laughing stock of the day. Have good attendance, uniforms, and discipline and you will receive cheers from any fair-minded citizen.

## LOCAL NO. 595, OAKLAND, CAL.

Editor:

Since my last letter there has not been many changes here in Oakland and about the Bay cities. Work conditions have not improved and many of the brothers, and old timers at that, are out of work.

In past letters I told you about some friction existing between locals No. 595 and No. 6. On account of San Francisco and Oakland being as close to each other it has always been hard to define the jurisdiction of work and has more or less caused trouble under our present system of traveling cards. The building trades cards are the same all over the state. The two executive boards met June 7, and drew up a new agreement between the locals for one year, which was concurred in by each local at their regular meetings held on June 9. The agreements affect the working rules only, and were unanimously endorsed by No. 6. The two executive boards are to meet jointly once each month. While this will make the working rules a little more flexible, the traveling card proposition remains the same and Six thinks she still has the right dope.

Many members of Local No. 595, are in favor of a universal card. This will be a good matter for the convention to take up and amend.

Our local has gone on record and indorses the six hour work day by unanimous vote.

Brother Frank Ellison had the misfortune to loose his house, which burned down Wednesday morning, June 16. "Red" is one of our city electrical inspectors and some of the boys have a joke on him that the fire started from faulty electrical work and apparatus.

Brother Harry Dean left for Kansas City June 27, with a traveling card. Harry stood high in both the state and city civil service examinations, and if it becomes necessary for him to "qualify" in an examination he can "cut the trick." We wish him success.

Levi Strauss & Co., of San Francisco, who manufacture overalls, are unfair to the Garment Workers union. So don't buy these overalls.

The following officers were elected June 30, for the ensuing term: President, L. M. Antley; Vice President, Geo. F. Moore; Recording Secretary, W. J. Parr; Financial Secretary, F. W. Adler; Foreman, W. Schnohr; Inspectors, Jack Smith and Thos. Griffith; Treasurer, Joe Porrier; Trustees, W. Crawford, W. S. Taylor and J. J. Jenkins; Press Secretary, A. E. Danielson. Local offices: Executive Board, J. J. McLugh, W. H. Stenson and P. J. McAuliffe; Examining Board, G. C. Ohlin, J. J. McTugh, F. Knudson, M. H. Newman and H. A. Nielson; Dele-

gates to Building Trades Council, F. O. Lee, Jack Ortnier, and P. J. McAuliffe; Central Labor Council, C. E. DeLue and B. Huber; Delegate to Contra Costa B. T. C., R. P. Galeand B. L. Spure; Roll Keeper, Sy Pierce; Business Agent, Frank O. Lee.

A constitutional committee was appointed to look after matters to bring before the convention at St. Paul. Don't forget to come and see us if you come to the fair. With best wishes for the success of the Brotherhood, I remain, Fraternally,

A. E. Danielson, ("Dan")  
Press Secretary.

Oakland, Cal., July 4, 1915.

#### LOCAL UNION NO. 619.

Editor:

The Faithful Few.  
When the meeting's called to order,  
And you look around the room,  
You're sure to see more faces  
That from out the shadows loom;  
That are always at the meeting  
And stay 'till it is through;  
The ones that I would mention  
Are the always faithful few.

They fill the vacant offices,  
As they're always on the spot;  
No matter what's the weather,  
Though it may be awful hot,  
It may be damp and rainy,  
But they are tried and true;  
The ones that you rely upon  
Are the always faithful few.

There are many worthy brothers  
Who will come when in a mood;  
When everything's convenient  
They can do a little good,  
They're a factor in the order  
And are necessary too;  
But the ones who never fail us  
Are the always faithful few.

If it were not for these faithful,  
Whose shoulders at the wheel  
Keep the order moving onward  
Without halt or reel,  
What would be the fate of others  
Who claim so much to do?  
They surely would go under  
But for the faithful few.

The foregoing few lines covers the local situation here so well that nothing more should be said, but like the boy who drew the horse on his slate, I will have to add: "this is a horse." And if I do nothing but arouse the ire of some of our inactive brothers, I will have done that much.

Some organizations have been killed by international strife, but we don't even have that here. What bothers us most

here is the passive indifference of the majority of our members. And the faithful few of our local have to sit and watch it dying from this inaction and don't know whether to give up the ship or hold on for our own sakes.

A cloud was cast over us on June 22, when we received the news of the electrocution of our brother, J. C. Trotter, who met his death at Hammond, Ind.

He was on traveler out of here and his home was in Clarksville, Tenn., where he was buried.

Fraternally,

A few lines from a brand new Press Secretary and with not much to say.

Everything is going very nicely here, but not too much work and not much outlook for new work.

We have a new Local in our little town. Operators, just organized with prospects for a brilliant future under No. 17-A.

One important feature of our Local is our educational plan we pull off every other Monday night. It makes all of the boys feel more at home and also gives the boys a chance to pick up a few things that they ordinarily would miss.

One of our boys caught a little drop on the pavement the other day but am glad to say that he is up and about now, and another stepped in some hot water, but is able to be out again.

Very fraternally,

O. C. Smith,  
516 6th St.

Press Secretary, L. U. No. 639.

L. U. NO. 669, SPRINGFIELD, OHIO.

Editor:

Just a few words to let you know that Local No. 669 is still on the map.

Business conditions here are no good, comparatively speaking—at least not in the electrical line; but we hope things will take a turn for the better soon. There are a number of the boys out of work at this time, also several who have taken up other lines of work until electrical work picks up.

The Local is still working hard to get the unfair contractors lined up but so far no satisfactory results have been gained. The fact that our Building Trades Council has practically gone to pieces, makes the task much more tedious, inasmuch as we have to cope with the situation single handed. However, we expect to win out in the end if we have to rebuild the B. T. Council to do it.

The writer had the pleasure, during the past month, of meeting Bro. Harry Wilson, out of Local No. 141, Wheeling, W. Va. While we are not in a position to put any traveling brothers to work at this time we certainly wish them all success elsewhere. It is always best, however, for any brother who happens to light in Springfield, Ohio, to see our Business Agent, Bro. Sam Wright, at Crain-Desormoux Co., 33 South Fountain Avenue, before leaving town, and, further, we extend a hearty welcome to all brothers to our meetings, should they be in town any Friday evening. We meet at the Labor Temple, 138 West High Street, at 7:30 p. m.

Champ Clark says that "Inside of sixty days everybody in the country will have plenty of money." If that is the case there certainly must be work ahead, so we hope he is right.

With best wishes for the I. B. E. W.,  
I am,

Fraternally yours,  
B. N. Silver,  
Press Secretary.

#### L. U. NO. 711, LONG BEACH, CAL.

Editor:

Well, here we are again, I will try to tell you everything that has happened since I last wrote, and try to tell what will happen in the future.

The Edison Company is doing a little underground work, but not enough to keep our Local boys busy, let alone the floaters that hit the burg every day.

California is in bad shape at the present for the working man, and it looks as if it was going to get worse instead of better. You see we have no factories and all the ranch work is being done by our dear little brown brother (the Jap). And now if you want a job on a ranch you must be able to speak, eat and sleep Jap. If you can answer these specifications there will be no trouble in getting a ranch job. Otherwise nothing doing. Don't believe in any calls for labor on the coast as it is simply a scheme to flood the country with unemployed men.

Local No. 711 had a nice closed up agreement at \$4.00 per day for her inside men all signed up. But the brother that had charge of it made a bunch of statements to the shops that were impossible for us to live up to, and then he just plain missed us when he said he would be down to straighten up things, therefore we had to eat dog, so we laid our nice new agreement on the table and \$3.50 is our same old scale. Sure we are sore, but not enough to call names yet. But will say that the next agreement will be handled by our own Local talent. Say if any of you boys run across a inside wireman named E. Larsen, light complexion about 5 ft. 4 in. tall and always smoking a pipe, let us know. He scabbed a job here, and jumped a \$67.00 board bill and we have hung a \$25.00 fine on him. We will appreciate it if you put us on his trail. Well, Adios, with hopes for a live covey bunch.

Yours,

R. S. Prest,  
Corresponding Secretary, Local No. 711.

This being my first letter to The Worker from No. 723, it will be a short one.

We held our election of officers last meeting night and then elected and installed were: President, J. J. Cooligan; Vice President, Z. Z. Miller; Recording Secretary, H. J. Becker; Financial Secretary, J. Buelow; Treasurer, S. Evans; First Inspector, F. Stalh; Second Inspector, C. Scarlet; Foreman, J. Driver; Trustees, A. Offerle; Press Secretary, C. Werkart.

Bro. Ferguson, out of Local No. 65, Butte, Mont., deposited his traveling card here. In the near future we will give our annual social for the benefit of the sick and accident fund. This Local has the reputation of having the best public entertainments and electrical displays of any other organization of this city.

This being all I can think of this time, I will close.

Fraternally yours,

Cloyd Weikart,  
Press Secretary.

## Telephone Operators' Section

#### L. U. NO. 5-A, WORCESTER.

Editor:

L. U. No. 5-a celebrated its second anniversary with an entertainment at Knights of Columbus hall, June 7th. Miss Anna Molloy was among the guests and

she was given a hearty welcome and her talk on the peace conference at the Hague was well worth listening to. She also gave an exhibition dance.

The program was in charge of Katherine R. Coyle. Songs and dances were given by James Coyle. Fred Parker gave piano

selections and sang. Piano solos also by Bertha Connors. Florence Sanderson and Grace Murphy gave an exhibition in the latest dances. Ann McGrath and Anna McDonald sang in a charming manner and there were entertaining recitations by Flora Galipeau. Grace Byrnes whistled several popular selections. Agnes Vancellette gave a piano solo and recitations followed by Mary O'Brien, Helen Murphy and Alice Driscoll. Violin solos by Lillian Reilly.

The entertainment was followed by dancing and refreshments.

Our election of officers was held June 21st. I am very happy to say and let the readers of The Worker know that Katherine R. Coyle was re-elected President. She was chosen out of a field which included Christina Domes, Bessie Byrnes and Katherine Donlan.

That and the numerous other contests were marked by an exceptional feeling of friendliness. Voting was by the Australian ballot, and it proved so successful that it will be used when there are contests for offices.

The polls were open from 12 o'clock noon until 8:30 o'clock at night. The counting was done by a delegation from the men's union.

Vice President, Margaret McCullough, re-elected.

Recording Secretary, Anna Foley, re-elected.

Financial Secretary, Mary Donahue, re-elected.

Treasurer, Katherine Donlon.

Foreladies, Minnie Cahill and Mildred Brunmark.

Inspectors, Katherine Donahue, Nellie Higgins, Helen Cottrell and Lu Donlon.

Press Secretary, Christina Domes, re-elected.

Executive Board, Christina Domes, Anna MacDonald, Katherine Donlon, Alice Shanghnessy and Lu Donlon.

These members were tellers, Mary Fallon, Katherine Donlon, Mary Donahue, Lu Donlon, Katherine Daley and Winifred Edwards.

Installation will be at our next meeting.

Mr. G. M. Bugnizet attended the meeting on election night and gave an interesting talk.

Closing I wish to say that our Rochester sisters and international organization now conducting a strike at Rochester have our deepest sympathy and support.

Fraternally yours,

Christina Domes,

Press Secretary.

## PRACTICAL HINTS

Where alternating current circuits are in conduit, all of the wires (two wires for single phase, three wires for a three wire or three phase and three or four wires for a two phase circuit) of a circuit must be carried in the same conduit to prevent inductive voltage drop and dangerous overheating of the conduit.

Trouble can be avoided in feeding conductors into conduit by being careful that they do not lap or twist. A lap or twist will bind the wire and make the pull very hard.

A reflector should always be used with any incandescent street-lighting lamp. Where no reflector is used a large portion of the light generated is projected above the lamp into the air and is wholly ineffective.

Where any lamp is hung so low that it lies within the range of vision of an observer nearby the glare from the unit should be eliminated by the application of a proper reflector or shade.

Where wires are carried through trees so that they would rub against branches they should be supported by tree insulators of some sort or should be incased in abrasion molding. Wires should not be rigidly attached to branches or limbs

because the swaying of the trees might break the wires. Several good patterns of tree insulators are on the market.

The desirable mounting heights for tungsten series street lamps is from twelve to sixteen feet for single light units ranging from twenty-five to eighty candle power. This height is advisable from the fact that in the majority of smaller and in some of the larger towns or cities, the streets are heavily wooded, and it is necessary to place the illuminants beneath this natural canopy of foliage. In case of higher candle powers as, for example the two hundred candle power tungsten lamp, a height of twenty to twenty-five feet should be maintained unless the lamp is enclosed in a diffusing globe; in which case the above mentioned height of twelve to sixteen feet would hold. When ornamental standards with two or more lights are used, a height slightly greater than twelve feet but not exceeding sixteen feet may be employed.

A concentric cable is a cable composed of an insulated central conducting core with tubular stranded conductors laid over concentrically (one commoncentre) and separated by layers of insulation.

A single belt travelling at a speed of

one thousand feet per minute will transmit one horse power; a double belt will transmit twice that amount. The best speed for maximum belt economy is from four thousand to four thousand five hundred feet per minute.

The charging current which is used for charging storage batteries must always be greater than that of the battery which is being charged. If it is not, the storage battery will be the stronger of the two and will overpower the charging current and so discharge itself.

Series motors should not be employed where the load may be entirely removed because they would attain a dangerous speed. They should not be used for driving by means of belts, because a sudden release of the load due to a mishap to the belt would cause the motor to run away.

Series motors are used principally for electric railways, trolleys, and electric vehicles, and similar purposes where an attendant is always at hand to regulate or control the speed. They are also used on series arc light circuits in which the current is of constant strength. Very small motors are generally provided with series windings.

Bituminized fiber duct is easily laid and when new permits cables to be drawn into it readily because of its smooth oily interior surface. It is a recent product and its life is as yet undetermined. Cases have been reported where duct lengths, in piles left to the action of the heat of the sun, have been warped by the weight of the duct lengths piled above them. Cases have also been reported where cables have stuck in fiber conduit and their withdrawal was thereby prevented. An overloaded conductor is apt to cause buckling of the duct. If the ducts are placed close to steam pipes the ducts are apt to sag and cause trouble.

The gears of a moving picture machine should be washed in gasoline. If the machine head is clean the machine will operate smoothly.

For the best results on the screen, it is essential that the entire optical system, that is to say, the condenser lenses, the aperture and the two combinations of projection lens, be on exact line with each other and with the arc light crater.

It matters not how excellent your lamp may be for motion picture purposes, unless you keep it properly lubricated you cannot handle it properly. The lamp should be taken apart and thoroughly lubricated with graphite.

A box of powdered graphite is very handy for the operating room.

**Horse Power.**—A unit of mechanical power; the power required to raise five hundred and fifty pounds to the height of one foot in one second, or thirty-three

thousand pounds to that height in one minute. Horse power involves three elements: (1) force, (2) distance, (3) time. If we express the force in pounds and the distance passed through in feet, we have a solution of, and the meaning for, the term foot pounds; from which it will be seen that a foot pound is a resistance equal to one pound moved one foot.

James Watt was early asked by would-be purchasers as to how many horses his engines would replace. To obtain data as to the actual performance in continuous work, he experimented with powerful horses, and found that one travelling at two and one-half miles per hour, or 220 feet per minute, and harnessed to a rope leading over a pulley and down a vertical shaft, could haul up a weight averaging one hundred pounds; equaling twenty-two thousand foot pounds per minute. To give good measure, Watt increased the measurement by fifty percent, thus getting the familiar unit of thirty-three thousand minute foot pounds.

**Candle Power.**—The standard candle by which all lights are measured, is legally held to be a sperm candle consuming one hundred and twenty grains of wax per hour. The lights are compared in a photometer while a test is being made. In practical measurements standardized incandescent lamps are more reliable and accurate than the primary standard. According to experiments made by the Government of the United States, a one candle power white light is visible at a distance a little more than one mile, one of three candle power is visible at two miles; and on an exceptionally clear night a white light of 3.2 candle power was readily distinguished at three miles; one of 5.6 candle power at four miles, and one of 12.2 candle power at 5 miles; a green or red two candle power light was visible at one mile, fifteen candle power at two miles, fifty-one candle power at three miles and one hundred and six candle power at four miles.

In transformer practice, the grounding of the middle or neutral point of the secondary winding of the transformer in order to reduce the fire risk in case the primary should become accidentally grounded. This is called an earthed or grounded neutral.

In the installation of lightning arresters, a sheet of copper or iron some ten square feet in area and at least  $\frac{1}{8}$ " thick should be used. This should be buried deep enough to lie in damp soil, with a layer of powdered coke placed above and below it.

To preserve wood, such as telegraph poles, from decay, a process of unregeneration with a solution of corrosive sub-

limate, or chloride of mercury. The proportions are one pound of sublimate to ten gallons of water for maximum strength, or one pound to fifteen gallons as a minimum. About twenty-four hours per inch of thickness are required for saturation. This is called pole—"Kyanizing."

In order to operate transformers on parallel they must be designed for the same pressures and capacities, their percentages of regulation should be the same and they must have the same polarity at a given instant.

If a direct current voltmeter was placed across an alternating current circuit there would be no deflection of the

pointer owing to the rapid reversals of alternating current.

A direct current can be measured by an alternating current voltmeter.

A dynamotor differs from a motor generator in that the motor armature and generator armature are combined into one, thereby requiring but one field frame. Since the motor and generator armature windings are mounted on a single core, the armature reaction due to the one winding is neutralized by the reaction caused by the other winding. There is, consequently, little or no tendency for sparking to occur at the brushes, and they therefore need not be shifted on this account for different loads.

## Elementary Lessons in Electricity and Magnetism

### CHAPTER VI.

#### MEASUREMENT OF CURRENTS, ETC.

#### LESSON XXIX.—*Ohm's Law and its Consequences.*

345. In Art. 180 the important law of Ohm was stated in the following terms:—*The strength of the current varies directly as the electromotive-force, and inversely as the (total) resistance of the circuit.*

Using the units adopted by practical electricians, and explained in Art. 323, we may now restate Ohm's law in the following definite manner:—*The number of amperes of current flowing through a circuit is equal to the number of volts of electromotive-force divided by the number of ohms of resistance in the entire circuit. Or,*

$$\text{Current} = \frac{\text{Electromotive-force}}{\text{Resistance}}$$

$$C = \frac{E}{R}$$

In practice, however, the matter is not quite so simple, for if a number of cells are used and the circuit be made up of a number of different parts through all of which the current must flow, we have to take into account not only the electromotive-forces of the cells, but their resistances, and the resistance of all the parts of the circuit. For example, the current may flow from the zinc plate of the first cell through the liquid to the copper (or carbon) plate, then through a connecting wire or screw to the next cell, through its liquid, through the connecting screws and liquids of the rest of the cells, then through a wire to a galvanometer, then through the coils of the galvanometer, then perhaps through an electrolytic cell, and finally through a return wire to the zinc pole of the battery. In this case there are a number of separate electro-

motive-forces all tending to produce a flow, and a number of different resistances, each impeding the flow and adding to the total resistance. If in such a case we knew the separate values of all the different electromotive-forces and all the different resistances we could calculate what the current would be, for it would have the value,

$$C = \frac{e' + e'' + e''' + eiv + \dots}{r' + r'' + r''' + riv + \dots}$$

Total electromotiveforce  
Total resistance

If any one of the cells were set wrong way-round its electromotive-force would oppose that of the other cells; an opposing electromotive-force must therefore be subtracted, or reckoned as negative in the algebraic sum. The "polarisation" (Arts. 163 and 413) which occurs in battery cells and in electrolytic cells after working for some time is an opposing electromotive-force, and diminishes the total of the electromotive-forces in the circuit. So, also, the induced back-current which is set up when a current from a battery drives a magneto-electric engine (Art. 377) reduces the strength of the working current.

346. **Conductivity and Resistance.**—The term conductivity is sometimes used as the inverse of resistance; and the reciprocal  $\frac{1}{r}$  represents the conductivity of

a conductor whose resistance is  $r$  ohms. In practice, however, it is more usual to speak of the *resistances* of conductors than of their *conductivities*.

347. **Laws of Resistance.**—Resistances in a circuit may be of two kinds—*first*, the resistances of the conductors them-

selves; *second*, the resistances due to imperfect contact at points. The latter kind of resistance is affected by pressure, for when the surfaces of two conductors are brought into more intimate contact with one another, the current passes more freely from one conductor to the other. The contact-resistance of two copper conductors may vary from infinity down to a small fraction of an ohm, according to the pressure. The variation of resistance at a point of imperfect contact is utilised in Telephone Transmitters (Arts. 434, 436). The following are the laws of the resistance of conductors:—

- i. *The resistance of a conducting wire is proportional to its length.* If the resistance of a mile of telegraph wire will be  $50 \times 13 = 650$  ohms.
- ii. *The resistance of a conducting wire is inversely proportional to the area of its cross section, and therefore in the usual round wires is inversely proportional to the square of its diameter.* Ordinary telegraph wire is about  $\frac{1}{8}$ th of an inch thick; a wire twice as thick would conduct four times as well, having four times the area of cross section: hence an equal length of it would have only  $\frac{1}{4}$ th the resistance.
- iii. *The resistance of a conducting wire of given length and thickness depends upon the material of which it is made,—that is to say, upon the specific resistance of the material.*

**348. Specific Resistance.**—The specific of a substance is best stated as the resistance in "absolute" C.G.S. (*i. e.* in thousand millionths of an ohm) of a centimetre cube of the substance. The following Table also gives the relative conductivity when that of silver is taken as 100.

It is found that those substances that possess a high conducting power for electricity are also the best conductors of heat. Liquids are worse conductors than the metals, and gases are perfect non-conductors, except when so rarefied as to admit of discharge by convection through them (Art. 283).

**349. Effects of Heat on Resistance.**—Changes of temperature affect temporarily the conducting power of metals. Forbes found the resistance of iron to be raised. The resistance of copper and lead also increase, while that of carbon appears on the other hand to diminish on heating. German-silver and other alloys do not show so much change, hence they are used in making standard resistance coils. Those liquids which only conduct by being electrolysed (Art. 205), conduct better as the temperature rises. The effect on light in varying the resistance of selenium is stated in Art. 389.

**350. Typical Circuit.**—Let us consider the typical case of the circuit shown in Fig. 28, in which a battery, ZC, is joined up in circuit with a galvanometer by means of wires whose resistance is R. The total electromotive-force of the bat-

tery we will call  $E$ , and the total internal resistance of the liquids in the cells  $r$ . The resistance of the galvanometer coils may be called  $G$ . Then, by Ohm's law:—

$$C = \frac{E}{R + r + G}$$

The internal resistance  $r$  of the liquids of the battery bears a very important

Fig. 128.

relation to the external resistance of the circuit (including  $R$  and  $G$ ), for on this relation depends the best way of arranging the battery cells for any particular purpose. Suppose, for example, that we have a battery of 50 small Daniell's cells at our disposal, of which we may reckon the electromotive-force as one volt (or more accurately, 1.079 volt) each, and each having an internal resistance of two ohms. If we have to use these cells on a circuit where there is already of necessity a high resistance, we should couple them up "in simple series" rather than in parallel branches of a compound circuit. For, supposing we have to send our current through a line of telegraph 100 miles long, the external resistance  $R$  will be (reckoning 13 ohms to the mile of wire) at least 1300 ohms. Through this resistance a single such cell would give a current of less than one milli-ampere, for here  $E = 1$ ,  $R = 1300$ ,  $r = 2$ , and there-

$C = \frac{E}{R + r} = \frac{1}{1300 + 2} = \frac{1}{4302}$  of an ampere, a current far too weak to work a telegraph instrument.

With fifty such cells in series we should have  $E = 50$ ,  $r = 100$ , and then

$C = \frac{E}{R + r} = \frac{50}{1300 + 100} = \frac{50}{1400} = \frac{1}{28}$  of an ampere,

or over 35 milli-amperes. In telegraph work, where the instruments require a current of 5 to 10 milli-amperes to work them, it is usual to reckon an additional Daniell's cell for every 5 miles of line, each instrument in the circuit being counted as having as great a resistance as 10 miles of wire.

If, however, the resistance of the external circuit be small, such arrangements must be made as well keep the total internal resistance of the battery small. Suppose, for example, we wish

merely to heat a small piece of platinum wire to redness, and have stout copper wires to connect it with the battery. Here the external resistance may possibly not be as much as one ohm. In that case a single cell would give a current of  $\frac{1}{2}$  of an ampere (of 333 milli-amperes) through the wire, for here  $E = 1$ ,  $R = 1$ , and  $r = 2$ . But ten cells would only give half as much again, or 476 milli-amperes, and with an infinite number of such cells in series the current could not possibly be more than 500 milli-amperes, because every cell, though it adds 1 to  $E$ , adds 2 to  $R$ . It is clear then that though linking many cells in series is of advantage where there is the resistance of a long line of wire to be overcome, yet where the external resistance is small the practical advantage of adding cells in series soon reaches a limit.

But suppose in this second case, where the external resistance of the circuit is small, we reduce also the internal resistance of our battery by linking cells together in parallel branches of a compound circuit, joining several zincs of several cells together, and joining also their copper poles together (as suggested in Art. 181,) a different and better result is attained. Suppose we thus join up four cells. Their electromotive-force will be no more, it is true, than that of one cell, but their resistance will be but  $\frac{1}{4}$  of one such cell, or  $\frac{1}{2}$  ohm. These four cells would give a current of 666 milli-amperes through an external resistance of 1 ohm, for if  $E = 1$ ,  $R = 1$ , and the internal resistance be  $\frac{1}{4}$  of  $r$ , or  $= \frac{1}{2}$ ; then

$C = \frac{E}{R + r} = \frac{1}{1 + \frac{1}{2}} = \frac{2}{3}$  of an ampere, or 666 milli-amperes.

**351. Best Grouping of Cells.**—It is at once evident that if we arrange the cells of a battery in  $n$  files of  $m$  cells in series in each file (there being  $m \times n$  similar cells altogether), the electromotive-force of each file will be  $m$  times the electromotive-force  $E$  of each cell, or  $mE$ ; and the resistance of each file will be  $m$  times the resistance  $r$  of each cell or  $mr$ . But there being  $n$  files in parallel branches the whole internal resistance will be only  $\frac{1}{n}$ —of the resistance of any one file, or will be  $\frac{mr}{n}$ , hence, by Ohm's law, such a battery would give as its current

$$C = \frac{mE}{\frac{mr}{n} + R}$$

It can be shown mathematically that, for a given battery of cells, the most effective way of grouping them when they are required to work through a given external resistance  $R$ , is so to choose  $m$  and  $n$ ,

that the internal resistance ( $\frac{m}{n}r$ ) shall equal the

external resistance. The student should verify this rule by taking examples and working them out for different groupings of the cells. Although this arrangement gives the strongest current it is not the most economical; for if the internal and external resistances be equal to one another, the useful work in the outer circuit and the useless work done in heating the cells will be equal also, half the energy being wasted. The greatest economy is attained when the external resistance is very great as compared with the internal resistance; only, in this case, the materials of the battery will be consumed slowly, and the current will not be drawn off at its greatest possible strength.

### 352. Long and Short Coil Instruments.

—The student will also now have no difficulty in perceiving why a "long-coil" galvanometer, or a "long-coil" electromagnet, of instrument of any kind in which the conductor is a long thin wire of high resistance, must not be employed on circuits where both  $R$  and  $r$  are already small. He will also understand why, on circuits of great length, or where there is of necessity a high resistance and a battery of great electromotive force is employed, "short-coil" instruments are of little service, for though they add little to the resistances their few turns of wire are not enough with the small currents that circulate in high-resistance circuits; and why "long-coil" instruments are here appropriate as multiplying the effects of the currents by their many turns, their resistance, though perhaps large, not being a serious addition to the existing resistances of the circuits. A galvanometer with a "long-coil" of high resistance, if placed as a shunt across two points of a circuit, will draw therefrom a current proportional to the difference of potential between those points. Hence such an instrument may be used as a voltmeter (Art. 360 c.)

353. Divided Circuits.—If a circuit divides, as in Fig. 129, into two branches at A, uniting together again at B, the current will also be divided, part flowing through one branch part through the other. The relative strengths of current in the two branches will be proportional

to their conductivities, i. e., inversely proportional to their resistance. Thus, if  $r$

be a wire of 2 ohms resistance and  $r'$  3 ohms, then current in  $r$ : current in

$$r' = r':r$$

$$= 3:2,$$

or,  $\frac{3}{5}$  of the whole current will flow through  $r$ , and  $\frac{2}{5}$  of the whole current through  $r'$ .

The joint resistance of the divided circuit between A and B will be less than the resistance of either branch singly, because the current has now choice of either path. In fact, the joint conductivity will be the sum of the two separate conductivities. And if we call the joint resistance  $R$ , it follows that

$$\frac{R}{1} = \frac{r}{1} + \frac{r'}{1} = \frac{rr'}{r+r'}$$

$$\text{whence } R = \frac{rr'}{r+r'}, \text{ or, in words,}$$

the joint resistance of a divided conductor is equal to the product of the two separate resistances divided by their sum.

Kirchhoff has given the following important laws, both of them deducible from Ohm's law.

- (i.) In any branching network of wires the algebraic sum of the currents in all the wires that meet in any point is zero.
- (ii.) When there are several electromotive-forces acting at different points of a circuit, the total electromotive-force round the circuit is equal to the sum of the resistances of its separate parts multiplied each into the strength of the current that flows through it.

354. Current Sheets.—When a current enters a solid conductor it no longer flows in one line but spreads out and flows through the mass of the conductor. When a current is led into a thin plate of conducting matter it spreads out into a "current sheet" and flows through the plate in directions that depends upon the form of the plate and the position of the pole by which it returns to the battery. Thus, if wires from the two poles of a battery are brought into contact with two neighboring points A and B in the middle of a very large flat sheet of tinfoil, the current flows through the foil not in one straight line from A to B, but in curving "lines of flow," which start out in all directions from A, and curl round to meet in B, in curves very like those of the "lines of force" that run from the N. pole to the S. pole of a magnet (Fig. 50). When the earth is used as a return wire to conduct the telegraph currents (Fig. 160), a similar spreading of the currents into current sheets occurs.

# Local Union Directory

This directory is compiled from the quarterly report, if not properly classified, it is because no report, or an imperfect one, has been furnished. Local secretaries should promptly report any changes.

Locals are composed of branches of the trade, as per the following signs:
